### COUNCIL HEARS PROPOSITION —RE CONCRETE PAVEMENT

Mr. K. McKenna, a representative of the Canada Cement Company, Limited, was in town last week and informally met the members of the town council with a proposition to pave part of Victoria Street with concrete.

The proposition as outlined would provide for the laying of a concrete centre along one mile of the street, with twenty feet and seven inches in depth of a regular even mixture of concrete.

According to figures submitted, it would cost the town in the neighborhood of \$25,000 per mile, or about \$37,000 for the whole mile and a half of our main street, meaning that this capital expenditure would entail an additional burden of around \$312 per year upon the town for the next twenty years for one and a half miles of pavement or \$2180 for one mile.

Mr. McKenna endeavored to show that the yearly payment of principal and interest of a twenty-year bond would be little more, if any, than the present annual cost of maintenance of the street in question.

It was figured that the provincial government would assist in the proposition by allowing one-half the cost of a crushed rock pavement, which would reduce the cost of the contract by at least five thousand dollars. It was also guaranteed by the company representative that the annual cost would not amount to more than \$100 a year for the next twenty years.

Some members of the council entertained the proposition favorably, but before taking any action it was thought well first to have the opinion of ratepayers on the matter.

One stipulation of the proposition is that the concrete would be laid under the supervision of and in accordance with mixture percentage required by the cement company.

### CONKLIN & GARRETT SHOWS COMING SEPTEMBER 8-10

Mr. T. R. Bickford, of Victoria, advance man for the Conklin & Garrett All-Canadian Shows, was in town the early part of the week effecting arrangements for the appearance of the shows here on Thursday, Friday and Saturday, September 8th, 9th and 10th.

We understand that the shows will appear here under the auspices of the Elks, who will receive a percentage of the proceeds.

The show will locate on the open section east of the cement plant.

### ANNOUNCEMENT

Mrs. W. Cole, of Bellevue, has just received word from Mr. Cole, who is at present on a business trip to Vancouver, to the effect that he has purchased the very latest in projection equipment for his theatres at Bellevue and Hillcrest, and is getting acquainted with the operating of same. The device in question at the present time is only installed in the biggest theatres of larger cities. Bellevue will be the first town in Alberta to introduce this system. Mr. Cole states that he is endeavoring to rush the equipment so that it may be used in connection with the super-special production, "Beau Geste," giving his patrons a real treat.

"Beau Geste" will be shown at the Bellevue and Hillcrest theatres on the night of Labor Day, Monday, September 5th. See ad elsewhere in this issue.

Tea drinking contest at the Moose Hall on Wednesday, August 31st, from 3 to 6 p.m. Handsome prize. Kindly send your entry early, as only a limited number can be accommodated on the stage.—M. Bond, secretary Junior Catholic Women's League.

### EMPIRE MINING CONGRESS TO VISIT BLAIRMORE

Definite word has been received to the effect that Blaimore has been included in the itinerary of at least one of the two trains that are conveying the Empire Mining and Metallurgical Congress party through Canada and the States in September.

One train, known as the "Red Special," will stop at Lethbridge on Friday, September the 9th, in the morning, where the party will inspect the plant of the Galt Collieries and other points of interest in the prairie mining city, which will include the experimental farm and Raymond Sugar factory.

The train will leave Lethbridge at 11 o'clock for Blaimore, reaching here at 2:35, where the coal washery plant of the West Canadian Collieries, Limited, will be inspected, following which visits will be made to the coal washery plants of the local company at Bellevue, McGillivray Creek Coal & Coke Co., Coleman, and the International Coal & Coke Co., Coleman. A special stop will be made at the Frank Slide. Return will be made to Blaimore, and at 11 p.m. the "Red Special" will leave for the west to join the "Blue Special" party at Kimberley enroute to Trail and other points.

The entire party will comprise about three hundred and fifty of the foremost mining men in the Empire, and their study of the Alberta and British Columbia resources is expected to have far-reaching consequences.

Indicating the size of the Congress meeting is the fact that a third tour, or "Green" train, will take another section through Ontario down to the Maritimes and across to Newfoundland.

The purpose of the Congress, which is held every three years, is to serve as an organ of communication between the mining and metallurgical institutions of the empire and to create and maintain throughout the empire a high standard of technical efficiency and professional status. It is made up of organizations from Great Britain, Canada, New Zealand, Australia, Newfoundland and South Africa.

The smiling countenance of Mr. G. C. ("Spikie") MacKenzie, B.Sc., the general secretary, will be missed with the western tour this year, Mr. MacKenzie having decided to take in Tour "B" on the Green Special through the Maritime Provinces and Newfoundland.

Meetings and technical sessions will be held at the following points: Montreal, August 22 and 23; Toronto, August 25 and 26; Winnipeg, September 3 and 4; Quebec, September 5 and 6; Sydney, N.S., September 9 and 10; St. John's Nfld., September 12 and 14; Vancouver, September 15 and 16; and Edmonton, September 20.

The premises of the Natal and Michel Literary and Athletic Club have been placed under seizure by Sergt. Greenwood, in charge of the district headquarters of the B. C. provincial police. These proceedings were instituted by the authorities when the officers of the club, which is located at Natal, B.C., failed to comply with the magistrate's conviction under the government liquor act, whereby the club was assessed a fine of \$1000 and costs, for having served beer to its members or guests on a Sunday. The conviction was made under date of July 25th, but the magistrate allowed the club officials until August 8th, by which date the said fine was to have been paid. The failure to comply with the court's order automatically brought about the recent proceedings. The seizure by the police included the stock of beer found on the premises and furniture and fixtures, as well as the building. The club has been closed by order of the police pending the outcome of the litigation.—Fernie Free Press.

### BLAIRMORE SCHOOLS OPEN MONDAY NEXT

The Blaimore public and high schools will re-open for the fall term on Monday morning next, with the following staff of teachers:

Donald McPherson, principal; Eric Muncester, vice-principal; Misses Crystal, Arlendon, Pozzi, McVey, Cox, Hyren, McDonald, Brunetto, Tompkins and Mrs. Fleming.

Since closing for the summer vacation, considerable repairs and renovation have been effected to the schools, including re-flooring of two rooms.

The Frank school will open on Thursday next, with Mr. Drake and Miss Mary Kroll as teachers.

### C. WINTGENS DROWNS AT FRANK

C. Wintgens, who operated a small dairy at Frank, was drowned at an early hour this morning in a pool quite near his home. He left the house in the early hours of the morning to attend to the milk cattle and was not missed till about the time he usually set out to deliver milk. After parties had been searching all day, the body was discovered about 3 p.m. in an upright position in the pool, his head being but a few inches below the surface.

Mr. Wintgens is survived by a wife and two daughters, Mrs. Dau and Miss Rosie Wintgens, with whom general sympathy is expressed.

### SUPPLEMENTAL EXAMINATIONS

Mr. and Mrs. Ed. Royle desire to thank those who assisted them following the accident on Sunday evening.

A careful survey and relocation of part of the unbuilt portion of the Corbin road saved the construction of two bridges and consequently will allow \$7000 for further completion of the road this year. Supt. Haynes thinks this money will be sufficient to construct the road as far as White Sulphur, which will keep the construction crew busy until the snow flies.

Supplemental high school examinations will be held in the Maple Leaf school, at Bellevue, commencing Monday next, August the 29th, at 9 a.m. open to all children of the Crow's Nest Pass.

A concert will be held in the Grand Theatre at Coleman on Wednesday night next, under the auspices of construct the road as far as White Sulphur, which will keep the construction crew busy until the snow flies.

## Canada To The Fore

Canada is certainly being kept well before the people of the British Isles this year and to a greater or less extent is calling for the attention of the people of the United States. The publicity the Dominion is receiving is of the best and most effective type and can hardly fail to be productive of results highly beneficial to the country.

The elaborate and wonderfully successful celebrations in connection with the Diamond Jubilee of Confederation focused the attention of the Empire, and large sections of the United States, upon the Dominion and led to a study of its past history and the really marvellous development of the country during the past sixty years. Canada today is better known and appreciated not only by the people of Canada but by the world. The story of its development and its future possibilities has been told far and wide and in such a way as to command the earnest attention and consideration of people of power and influence.

Following the Jubilee celebrations, the visit of H.R.H. the Prince of Wales, Prince George, and Premier Baldwin has again kept Canada prominently before the people of Great Britain. The tour of these distinguished visitors has been followed with the keenest interest by the British press, and it is well within the bounds of probability that a very great stimulus will thus be given to British immigration to Canada.

The ceremonies attendant upon the dedication of the Memorial Chamber in the Peace Tower at Ottawa by the Prince of Wales in their simple but impressive dignity could not fail to impress the British people. So, too, the unveiling of the statue of Sir Wilfrid Laurier who so nobly carried on the work of the Fathers of Confederation and who was always a commanding and popular figure in the eyes of Great Britain. Finally, the official inauguration of the Peace Bridge at Niagara attended by the heir to the British crown, the Premier of Great Britain, the Premier of Canada, the Vice-President of the United States, the Governor of New York, the Lieutenant-Governor of Ontario, and other high officials, provided a friendly meeting ground of the whole English-speaking family and provided an object lesson for all the nations of the world.

The present year has witnessed the placing of a Canadian Minister at Washington and an American Minister at Ottawa; it has revealed the expanding trade of Canada with the world; prosperity and decreased taxation at home; substantial reductions in the National debt; growth and development in all directions. Most of prominence in the life of Great Britain have visited Canada in increasing numbers, and at the present time proprietors of nearly one hundred individual British newspapers are touring the Dominion from coast to coast, seeking for themselves the prevailing prosperity and sizing up the untold possibilities of the future.

It is no idle boast to say that the Twentieth Century is Canada's century. But for the interruption of the Great War and the ensuing depression, and reconstruction rendered necessary to make good war's destruction Canada would now be much farther along the road to the goal set for it when the century opened. It may well be, however, that the very conditions created in the Old World as a result of the war will have such far-reaching results in the movement of population that, in the long run, Canada will from the standpoint of settlement and economic development more than make up for the lost war years.

Certain it is, the war made Canada known to the world as nothing else could have done. Through war Canada found its own soul, realized its own capacity for achievement, developed its productive and financial strength, proved its ability to solve difficult problems and handle great enterprises. Now, in its Jubilee year, the Dominion is feeling the impulse of a reawakened National spirit, and is receiving the fruits of an era of marked expansion in all lines of national endeavour.

The effect is everywhere noticeable throughout the Dominion and the Canadian people are fortunate in that the facts of Canada's growth, development and potential wealth are being investigated by the Old World as never before, and the story told to the millions by their own leaders following personal visits to this country. Canada can realize greater things in the extent that her citizens are prepared to strive for and by service and effort bring to fruition.

### Motor Casualties Increase

Daily Toll Of Accidents Has Become Appalling

Notwithstanding all the warnings and regulations intended to ensure the safety of those who use the roads, the daily toll of accidents is appalling and the total casualty roll must be something enormous. The majority of these accidents are preventable, and the worst feature about many of them is that it is so often not the victim who are to blame. The fool driver could be excused more readily if he were the only person whose life he endangered, but frequently it is the innocent party who suffers most when the speed fiend is abroad.

### Hotel For Children Only

Berlin claims to have the first hotel for children only. This hotel was erected by the city's juvenile welfare organization in one of the quiet districts of Berlin. It accommodates children sent to recreation places, who have to make a stop-over in Berlin. The hotel has rooms for 350 youngsters.

### Quota Law Is Needed

Immigration From Central Europe To Canada Should Be Limited

Last May 23,000 immigrants were admitted to Canada. Only 8,408 were British born. So nearly two-thirds of the new settlers were of non-British races.

What is going to happen to Canada if our Immigration Department is allowed to continue that policy? With the experience of the United States before us, we seem to be bent on committing national suicide.

The greatest need of Canada is a quota law that will limit the flood of Central Europeans, and encourage the British and Nordic races to come to this Dominion. — The Sentinel, Toronto.

### Open Season For Elks

Open season for elks during which a hunter may take one adult male animal, has been declared in Saskatchewan. The season, from November 15 to November 20, inclusive, will constitute the first open season which has been allowed since 1918. The step has been taken, according to the game commissioner's report, because of the large increase in the numbers of these animals in the last few years.

### Broadway Sometimes Dark

Broadway, New York, is the darkest main street in the United States after two or three o'clock in the morning. After the commercial lights in the electric signs and stores are put out New York's brightest highway is very dimly lit. There are 3,255,585 lamps along the Great White Way.

Minard's Liniment for scaly scalp.

### "Pedal Propelling" Boat Refused To Function

Craft Is Useless and Trip Across Atlantic Has Been Abandoned

Confessing that the idea of "pedal propelling" across the Atlantic is a failure, Edward Tierney and Dick Hayman, of Lancashire, are understood to have definitely abandoned the plan to make such a crossing and to ready to sell their strange craft. Tierney tested the boat, called the "Carrie," in the harbor and was dismayed to find she refused to function. After repeated attempts he said: "The craft is useless. She has a bad list and leaks badly. The pedal propelling idea is a failure."

"Carrie" is a 12-foot steel boat built like a submarine. She has a beam of three feet and draws two feet of water. She was designed to power mainly through the force of the wind against a small windmill which drives a screw propeller. In calm weather the navigators were to use muscle power to drive the propeller by means of foot or hand pedals. When the plan was made, Tierney and Hayman said they hoped to make the crossing in forty days.

### Use This Liquid To Peel Off Corns

An amazing remedy—acts in a few seconds and causes no pain. The corn shrivels up and loosens. No application of two or three days of corns. You can buy Putnam's Corn Extractor from many druggists. Get it now. Refuse a substitute for Putnam's.

### Postpones South Pole Trip

Commander Byrd Decides Details Cannot Be Arranged This Year

After careful consideration of the danger involved in a hasty preparation for his expedition to the South Pole, Commander Richard E. Byrd has announced that the undertaking would be postponed until 1928. Previously, while in Paris, he had expressed the hope that he could make his start this fall.

It was explained that Commander Byrd expected to encounter severe storms and conditions which would make a mishap of any kind almost surely fatal.

### RETAIN YOUR VIGOR

This Can Only Be Done by Keeping the Blood Rich and Red

If you would regain your vigor and ambition, keep your blood and nerves in good condition. Anemia, or thin blood lowers the vitality, starves the system and causes dropsy and other down conditions. When the blood is thin the skin loses its color, the system drops and the weight is lost. The victim of anemia loses appetite, suffers from indigestion, headaches and dizziness, and is nervous and exhausted after slight exertion. If you have any of these symptoms do not delay but begin treatment now with Dr. Williams' Pink Pills and you will be gratified with the prompt improvement in your condition. Among the thousands who have found new health through the use of this medicine is Mrs. Herbert Naege, Ludlow, N.B., who says: "I had not been feeling well for some time and was gradually growing weaker. I would take dizzy spells and headaches. I was subject to severe headaches and found it hard to do my work. I took doctor's medicine for some time, but it did me no good, and I was still growing weaker. In this condition I began the use of Dr. Williams' Pink Pills and in a short time found they were helping me. I continued the use of the pills for a while longer, and found that the trouble that had bothered me was gone and I was once more a well woman."

Get Dr. Williams' Pink Pills at your druggist's or write Dr. Wm. H. Williams, Medicine Co., Brockville, Ont., and the pills will be sent post paid at 50 cents a box.

### At-Home In Style

A young married woman who believed that scientific infant management coincided with her own appearance upon earth called in the doctor to see her baby, suffering from some trivial ailment. He prescribed some pills and a bottle of cod liver oil. "But that is such an old-fashioned remedy, doctor?" protested the mother. "Well, madam," replied the doctor, "babies are very old-fashioned things."

For Corns and bunions use Minard's Liniment.

If your hair is not satisfactory, just mention it to him and perhaps he will permit you to resign.

A sensible man doesn't care if he isn't good looking, he knows that there are others.

Nine times out of ten when the unexpected happens we bring it on ourselves.

Minard's Liniment for scaly scalp.

### Death Of J. Ogden Armour

Once Controlled a Billion Dollar a Year Business

J. Ogden Armour, who once controlled a billion dollar a year business but who liquidated his holdings to such an extent that he had virtually vanished from financial and commercial fields, died recently in London in 1914.

He was the former head of Armour and Company, packers, founded by his father, Philip D. Armour.

Mr. Armour's holdings had so dwindled in recent years that in 1925 the federal revenue office showed his income not taxable. He at one time devalued \$150,000,000 for his interest in the packing company alone, and was known as the largest owner of bank stock in Chicago.

His interest in men of all classes drew for him universal affection, and he seemed to delight in his friendship with his employees.

Fate played its part in making and unmaking the Armour fortune. Deflation at the close of the civil war aided Philip D. Armour and at the close of the great war gravely weakened the financial power of his son, J. Ogden.

The Chicago Herald and Examiner said that although Mr. Armour was not the world's second richest man, his estate at his death was estimated at \$20,000.

"It was a financial casualty of the war and he took his punishment like a brave soldier," said the newspaper.

### Newest Military Aeroplane

Britain Builds the Largest Flying Ship in the World

Great Britain's newest military aeroplane is a veritable battleship of the air. It is the largest flying ship in the world, of 50 knots, in its hull are ample living quarters and sleeping accommodations for a crew of five. Bunks can be folded up when not in use. The radio operator's room is a separate, noise-proof compartment.

The new dreadnaught of the skies is equipped with large, fresh water storage tanks and carries an electrical cooking apparatus in her galley. She can remain in the air 24 hours.

Christened the Iris II, the huge flying boat takes off from the water at the speed of 50 knots. In her hull are ample living quarters and sleeping accommodations for a crew of five. Bunks can be folded up when not in use. The radio operator's room is a separate, noise-proof compartment.

The new dreadnaught of the skies is equipped with large, fresh water storage tanks and carries an electrical cooking apparatus in her galley. She can remain in the air 24 hours.

### To Occupy Marlborough House

Prince Of Wales To Change His Residence On Return To England

The Prince of Wales will change his residence from York House to Marlborough House, and will immediately on his return from Canada. The work of reconciling Marlborough House is now being accelerated so as to have the place ready for the Prince as soon as possible.

It is scarcely concealed that the royal household does not altogether relish changing from his compact quarters at York House, which is within a stone's throw of Marlborough House, but the latter has so many associations with King Edward VII. that it is hardly surprising that it seems only fitting, now that King Edward's gracious consort, Queen Alexandra, is no more, that this historic residence should be occupied by the present heir to the throne.

### A Large Pipe Organ

More than 10,000 pipes, 375 stops, two consoles, and a string orchestra effect are features of a large pipe organ which a factory at St. Louis, Mo., has contracted to build for St. Patrick's Cathedral, New York City, for \$131,000.

### Its Quality Sells It—The fact that so many thousands of intelligent people are using Dr. Thomas' Electric Oil speaks volumes for its healing efficiency. Ever since it was first introduced it has grown steadily in public favor, owing entirely to its manifold usefulness in relieving and healing sickness. As a specific for cuts, burns, scalds, and various inflammatory pains its record is beyond reproach.

Taploca is a product of taploca flour, which comes from the root of the cassava, a tropical plant similar to our sweet potato plant. Most of our supply is imported from Java.

### Cougars Attack Sheep

Farrier On Cortez Island Had Entire Flock Wiped Out

Sheep owners on the east coast of Vancouver Island and adjacent islands have suffered heavily of late from losses by wild animals, one farmer on Cortez Island having had his entire flock wiped out by cougars. Cecil Smith, of Courtney, paid a visit to the island and succeeded in killing three cougars, two of the big cats being shot at night by the light of a lamp. Two cougars were also killed by Mr. Smith on the same island a short time previously. There is a provincial bounty of \$40 per head on cougars. In the Nanaimo and Oyster River district bears are reported to have killed many sheep.

Relief From Asthma. Who can describe the complete relief from suffering which followed the use of Dr. J. D. Kellogg's Asthma Remedy? Who can express the feeling of joy that comes when the most painful and distressing ailment is relieved, the tightened, choking air tubes? It has made asthmatic life a thing of the past for thousands. It never fails. Good druggists everywhere have sold it for years.

### Death Of Noted Author

James Oliver Curwood Was Author Of Stories Of Canadian North

James Oliver Curwood, author of stories of the Canadian North, and noted conservationist, died at his home at Owosso, Mich., after an illness resulting from streptococcal infection which had confined him to his bed for one week.

Mr. Curwood was credited with being one of the foremost authorities on matters pertaining to the Canadian North West, and every year since he began his career as an author, in 1908, he passed several months in that territory frequently travelling as far north as the Arctic coast. He is said to have been the only American ever employed by the Canadian Government as an exploratory and descriptive writer.

Curwood's love for the outdoors motivated his life and his work as a novelist. He published 24 novels. "The Courage of Captain Plum," his first novel, was written in 1908, after he had spent seven years in newspaper work.

Written was in Curwood's blood. On his father's side he was descended from Captain Marryat, the novelist. He was born June 12, 1878, the son of James Moran and Abigail (Griffin) Curwood.

### To Search For White Indians

Expedition Starts For Tropic Jungles Of South America

Determined to find, propitiate and photograph an almost legendary tribe of war-like white Indians said to have been discovered twenty years ago by Caspar Whitney, the American explorer, in the tropic jungles of South America, near the head waters of the Orinoco River, Dr. Herbert Spencer Dickey, F.R.G.S., with his wife and Harold Norton, a Pathan's camp, sailed from Brooklyn on the North liner Franca, to be gone five or six months. The Franca will carry the explorers as far as Para, another boat taking them to Manaus, Brazil, 1,000 miles up the Amazon River whence they will go by pack train and canoe toward their goals. About forty natives are to be engaged as guides and carriers.

Can Make Colored Films

The cameraman, Kobenhaven has announced that Carl Arstrup, the Danish actor, and Viggo Jensen, an engineer, have succeeded in perfecting a practical process for the production of colored films and have sold the process to a company in the United States. The paper says that the inventors are to receive \$1,000,000.

### Held Breath Fourteen Minutes

College Man At Middleton, Conn., Breaks World's Record

E. L. Gaylor, Jr., of Cliftondale, Mass., a member of the senior class at Wesleyan, has broken the world's record for breath-holding, by establishing a time of 14 minutes 2 seconds.

The previous mark was made at the University of California, in 1916, when 10 minutes 20 seconds was recorded.

Gaylor accomplished his feat by breathing excessively a short time before holding his breath, to rid his blood of much of the carbon dioxide. To prepare himself further he concluded the process with three breaths of oxygen, the last of which he held for the record time.

Prof. E. L. Schneider of Wesleyan says the authenticity of the test can not be questioned, as a graphic record of chest and diaphragm motion over the entire period gave convincing evidence that at no time while the test was being made could air have been taken into the lungs.

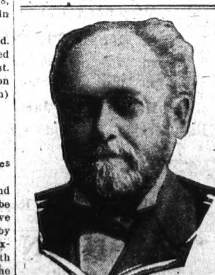

Miller's Worm Powders were devised to promptly relieve children who suffer from the ravages of worms. It is a simple preparation to destroy stomachic and intestinal worms without shock or injury to the most sensitive system. They act thoroughly and painlessly, and though in some cases they may cause vomiting that is an indication of their powerful action and not of any nauseating property.

### Canada Mapped From Air

Since 1921 when aerial photographic surveys were begun by the Topographical Survey of the Department of the Interior, 25,630 square miles in Canada have been covered by vertical photographs and 127,540 square miles by oblique aerial photographs.

### Cannot Fill Orders

Aviation in America is making such rapid progress that there are more commercial aircraft plants than automobile factories, and none is able to keep up with orders, says William P. MacCracken, assistant secretary of commerce in charge of aviation.

### A Man Of Rare Professional Attainment

The originator of Dr. Pierce's Golden Medical Discovery was the late Dr. J. C. Pierce, M.D. As first he practiced medicine in Western Pennsylvania and his unusual ability and success in his profession led him to move to Buffalo, N.Y., and establish the World's Dispensary where his famous home remedies have ever since been made.

Each succeeding year the sale of Dr. Pierce's Golden Medical Discovery has been greatly increased. Evidently people appreciate the fact that it increases the appetite, stimulates the digestion, helps to enrich the blood, clears the skin of eruptions and blemishes, and makes men and women feel as they did when they were young. It contains no harmful ingredients. Ask your nearest druggist for Dr. Pierce's Golden Medical Discovery, in tablet or liquid form, or send 10 cents for a trial package of tablets to Dr. Pierce's Branch Lab, at Bridgeport, Conn.

## CRITICISM OF THE POLICY OF EMPIRE MARKET BOARD

OTTAWA.—A strong criticism of the Empire-Marketing Board by Hon. C. A. Dunning, Minister of Railways and Canada and a member of the board, featured the dinner given by the Canadian government to the visiting members of the British Empire Association.

Mr. Dunning, who proposed the toast to the guests, said he had not yet been impressed with the fact that the Empire-Marketing Board had gotten far enough away from the old idea—a relic of colonial days—that it was the business of the colonies and dominions to raise the raw materials to be shipped to the central market to be manufactured and that it was the duty of the central market to buy the manufactured goods. Mr. Dunning held that the idea was good in the old days but no longer held in the days of self-governing dominions. He asked the visitors how many of them would be content to raise the raw materials and develop the natural resources, unless they manufactured the finished product at home, and said he had decided with the British manufacturers to transfer to the dominions plants and portions of plants and their artisan groups, rather than to allow others, sometimes outside of the Empire, to gain a control of manufacturing in the dominions which might possibly become permanent.

"It is better," he asked, "to lose the business than to come to the market where the business is and manufacture commodities suitable to the market."

Mr. Dunning referred to himself as a living example of what Canada held in store for the British immigrant. He wanted to say, he said, that Canada treated those determined to adapt and adjust themselves well. The Dominion did not want immigrants whose first thought was "What will the Government do for me?" Canada wanted immigrants who were not determined to lean on the Government but who were willing to support it.

Hon. Bernard Rinfret, Secretary of State, presided at the dinner and welcomed the visiting newsmen on behalf of the Dominion Government.

"It will be of great benefit if we practice an interchange of views which will enable us to meet on a common ground," he said, referring to relations within the Empire.

John Sidney King, president of the Press Association, referred to Mr. Dunning's remarks regarding the Empire-Marketing Board and said that work at present was largely in an experimental stage. One function of the board was to teach Canadian producers to pack goods in a manner suitable to the British market.

Canada, he added, must send the best of her produce to the British market and it must be delivered in the best possible condition. He foresaw great results from the efforts of the board.

### Flight Across Prairies

Non-Stop Flight From Winnipeg To High River In Eight Hours  
Calgary.—Eight hours after he left Winnipeg, Flying Officer T. M. Shields of the Royal Canadian Air Force, landed at High River, completing a non-stop flight in which he averaged well over 100 miles per hour during the 500-mile journey. He experienced no trouble during the time that he was in the air.

The distance travelled by Flying Officer Shields equals about one-third of the total flying distance between Montreal and Vancouver and illustrates the possibilities of aviation in this country. The whole width of the prairies was traversed in eight hours without a stop.

The aviator travelled alone and carried enough gasoline for 10 hours' flying or a flight of 1,100 miles. His plane was a Huff-Daland and will be tested out here as to its suitability for forest patrol work. It is a better type than others at the High River station. During the past few weeks it has been used in Manitoba for spraying grain fields with rust-preventing chemicals.

### Only One Graduate

Station.—A supervisor of the Virginia state board of education recently had to travel 175 miles to address a graduating class composed of one person. He gave the diploma to Miss Ruth Hickman, at Millboro, and the author class had only one graduate.

W. N. U. 1655

## Poultrymen Visit Edmonton

Trip Through West Proving Enjoyable and Educational

Edmonton.—Representing 18 different and about 150 delegates from the World Poultry Congress, recently held at Ottawa, arrived at Edmonton, all mostly tired from long train journeys and anticipating a good rest in the city during the day.

Hon. J. S. Martin, Minister of Agriculture for Ontario, is one of the Poultry Congress tourist visitors who had not been before in Edmonton. He was a caller at the Parliament Buildings during the morning and compared notes for a short time with his Alberta running mate, Hon. George Ross.

A story of good crops all across Canada is told by the Ontario Minister. In his own province the fruit yield is only fair, but grain and other crops are excellent, with a particularly noticeable increase in the acreage under tobacco, he said.

Mr. Martin was greatly struck with the appearance of the wheat fields along the railway between Saskatoon and Edmonton and liked the summer following that he saw there and elsewhere in the West. The whole trip through the West is proving both enjoyable and educational, he says, not only to the members of the touring party who come from other countries but to Canadians, like himself, who are accompanying them.

## Harvest Help Arriving

Large Quota From Eastern Canada and British Columbia

Winnipeg, Man.—The great tide of harvesters will soon be flowing over the prairies. Arrangements have been completed for the handling of the thousands who will come from Eastern Canada, according to officials of the Canadian National Railways, and there will be no delay in getting them to the points where they are most needed. British Columbia, which will send 1,500 this year, has already begun its movement, 300 being on the way now from Vancouver and fifty from Victoria, and others will follow closely on their heels.

Eastern Canada will contribute 25,000 men to the harvest this year. It is estimated. Manitoba needs 2,000, and can get 2,000 locally; Saskatchewan asks for 40,000 of which a half are available locally, and Alberta needs 15,000 of which 5,000 must come from outside the province. British Columbia has 5,000 available.

## Turk Monument At Gallipoli

Turkish Government To Erect Memorial To Countrymen Who Perished In War

Gallipoli, Turkey.—The Turkish government is to erect a memorial on the heights of Gallipoli to the 100,000 Turks who perished in the Great War campaign there.

According to a member of the Construction Committee it will be of such proportions "that it will make existing monuments erected by the Allies seem no more than insignificant bits of stone."

It will be 132 feet high and \$35,000 already has been appropriated by the Ministry of Defence for its construction.

## Norwegian Emigrants Coming To Canada

Quota For U.S. Is Limited and Dominion Benefits

St. Paul, Minn.—Canada is getting the emigrants of Norway, Christian Anderson, an employee of the University of Minnesota agricultural school here, stated on his return from a visit to his native land.

"Under the immigration law of the United States, the Norwegian quota is only a fraction of the number that would like to come here," Anderson said.

"Canada has been quick to see the point," he said, "and has agents in Norway."

### Bear Wrecks Sedan

Ashford, Wash.—A picnic party in Indian country returned to find their parked car after a short hike and found a large bear clambering onto the top. The top of the sedan gave way under the animal's weight and let it down into the car, where it snatched its way free. All of the car except the chassis was demolished.

### Forest Fires In Buffalo Reserve

Edmonton.—190 rangers have been ordered to the Buffalo reserve near Fort Smith where a dozen fires are said to be blazing. The herds of wood and plains buffalo maintained there by the Dominion Government face a lean winter if the acres of wild hay are destroyed.

## Editors Touring Canada

British Party Will Cover Dominion From Coast To Coast

Montreal.—British newspaper owners and editors to the number of 30, members of the party which is touring Canada, arrived in Montreal from Quebec after completing a tour of the Maritimes and before returning to the Old Land will cover Canada from coast to coast.

"When we get back to Europe again, Canada's story will be told throughout the length and breadth of Great Britain," said John Sidney King, president of the British Newspaper Society. "After such a journey as this we can never again regard bringing in the name of Canada at every opportunity. Before we left, Canada to many of us, was just a patch of red on the map of the world. Now we are seeing its amazing proportions and developments for ourselves."

## HOW JOHN JINKS SAVED LIFE OF COSGRAVE GOVT.

Dublin.—John Jinks, who made his name a household one in Ireland by writing out of the Dail and saving the life of the Cosgrave Government by failing to record his vote, was neither kidnapped nor spirited away.

"I simply walked out of the Dail. I was neither kidnapped nor spirited away," Jinks said this evening. "For the sake of the stability of my constituents I thought it was better to retain the present Government."

Jinks thought the result of the division, which was in favor of the Cosgrave Government only by the narrow margin of one vote cast by the Speaker to break a tie, was a good thing for Ireland.

His action in failing to vote as his colleagues of the National League (Home Rulers) did—against the Government—was likely to result in his expulsion from the party.

The first suggestion that Mr. Jinks might have been kidnapped was contained in a despatch to The Evening Star from its Dublin correspondent, who said that Jinks supported the resolution to vote against the Government adopted at a party caucus recently, was in his place in the Dail Eireann an hour before the vote was taken, but then disappeared. Captain William Redmond, leader of the National League Party, was quoted in the despatch as expressing the opinion that Jinks' failure to vote with his colleagues must have resulted from his being spirited away, unless he had been overcome by a sudden illness.

### Greetings Were Delayed

St. Paul, Minn.—Christmas greetings for 1926 are being received by about 500 friends of Mr. and Mrs. A. B. Jackson. Jackson found the bundle of unopened cards under the seat of his automobile recently and dropped them in a mail box. He had carried them in the car since last December.

## TENSE SITUATION IN CHINA OVER AVIATION POLICY

Shanghai.—In the midst of an increasing chaos in both the military and political situations in the Yangtze Valley, an incident arising out of the forced landing of a British military aeroplane on Chinese territory has developed a tense situation between the Chinese authorities and the British Expeditionary Force here.

Although the precise spot where the plane landed was held by Chinese soldiers and was the Kiangnan golf course, this land, nevertheless lies outside the international settlement of Shanghai. The Chinese authorities have repeatedly protested against British aircraft flying over any and all Chinese territory, whether used by foreigners who play golf or by Chinese generals for manoeuvring.

Dr. C. C. Wu, Minister of Foreign Affairs for the Nanking Nationalist Government, announced that the Chinese intend to use the incident for a show-down in the matter of flights over Chinese territory.

"The British in the eyes of the Chinese and international law are criminals as regards their aviation policy in China," Dr. Wu said, adding that although the Chinese had not the force to meet British "imperialism" they intended to let the world know what the British were doing.

The aeroplane incident has resulted in British demands for the return of the wings of the plane, the only parts of the machine that a Royal Air Force detachment had not carried off to safety before Chinese troops arrived.

When the Chinese refused to restore the wings, Major-General John Duncan, the British commander ordered the railway between Shanghai, Hangchow and Ningbo to be cut south of Soochow Creek and British troops were posted at strategic points around the city, thus reoccupying the posts held by them during the trouble several months ago which followed the capture of Shanghai by the Nationalists.

### Noted Artist Dead

London.—Richard Caton Woodville, English artist, known for his battle paintings, was found shot in his studio and died on the way to the hospital. He was born in London, January 7, 1856, and was educated in Germany. He exhibited his first picture in the Royal Academy in 1879, since which he has been represented annually. He painted several large pictures in Windsor Castle for the Queen. He also wrote articles on sport and travel.

### For Protection Of Air Pilots

London.—Piracy on the high seas and highway robbery are new terrors of the past, and air pirates are the danger of today. To meet this new menace, the pilots of billion-carrying aircraft of the British Imperial Airways Limited are being armed with revolvers.

## Alberta Coal For East

Outlook More Favorable For Shipments To Ontario This Fall

Toronto.—Following a conference between Mayor Foster, Proprietor Constellation Chairman of Toronto and Howard Stubbins, trade commissioner of Alberta, the outlook becomes more optimistic for shipment to Toronto and Ontario generally of Alberta coal.

"As the railway commission is now considering the question of fixing rates on Alberta coal for shipment to eastern points, we have every hope that we are going to get a rate this year," said Mr. Stubbins, "and there is going to be a free movement of coal from Alberta to Ontario. The railway board, I expect, will make its findings before the end of the month and the Government will have to take action after that. We feel pretty certain that the finding will be satisfactory. I am basing that statement on the evidence submitted."

## Estate Worth Thirty Million

Brothers and Sisters Of Arthur Walker Receive Large Share

New York.—The will of Arthur T. Walker, heir to the fortune of Edward F. Scars, Methuen, Mass., reclusive, leaves the bulk of his \$30,000,000 estate to his four sisters and two brothers. The will, which was filed in Brooklyn, also provided a \$200,000 bequest to Walker's secretary, E. E. Rudd. Mr. Walker, who was a native of Chatham, Ont., was buried in that city last evening.

Walker's secretary was bequeathed \$75,000 in the original will dated Feb. 14, 1923, but in a codicil dated June 26, 1925, the amount was increased to \$200,000.

The secretary was named sole executor without bond. There were numerous bequests ranging from \$2,000 to \$25,000 to friends.

## Used Flashlight When Lighting Plant Failed

New York Doctor Forced To Perform Operation Under Difficulties

New York.—Mrs. Violet Moore, of Jersey City, N. J., recovering from an operation for appendicitis performed by the light of an electric flashlight in a hospital during an electric storm. The doctor had just administered the anaesthetic when a bolt of lightning extinguished every electric light in the hospital. Dr. Muttart, the surgeon, called for some sort of light and Miss Mary Reed, hospital superintendent, found a flashlight. For an hour and ten minutes the surgeon worked under its rays until the operation was completed. Mrs. Moore was taken from the operating room just as the electric light flashed on again.

## BRITISH PREMIER TO PAY VISIT TO CANADA AGAIN

Halifax.—"We have loved every minute of our time. We are tired, of course, because we have worked hard," Premier Baldwin told the citizens of Halifax in his parting address. "I have given every minute of time I could spare to Canada, and when I am through with the duties of my present post I will come again," he added.

The addresses of welcome by the province and by the city were said by Mr. Baldwin, "steeped in the history of this continent and crowded in language to warm the heart of an Englishman." The Prime Minister took exception to two words in the address. North Scotia had called him "a great man" and Halifax called it "recreation." He felt as though he might have to go back to Scotland in order to get a little rest.

On the chair of office, Mr. Baldwin said the date 1719. "I can almost remember that date," said Mr. Baldwin, "and I do remember that there were no gloomy and an depressing years as Great Britain ever passed through. And through those years this city and this province have been the one spot where the flag was never lowered and it is the spot where it will never be lowered so long as the flag flies anywhere. It was here that the loyalists came to take shelter—that moment when, stuck in every place, which became the parents of this part of Canada, gave the very best to the life of the people of today."

"I read with great interest the report of the commission under the chairmanship of Sir John Macdonald," the Premier continued, "and the result of that report may be to increase the prosperity of these provinces."

## COAST PROVINCE MOURNS PASSING OF AGED PREMIER

Victoria, B.C.—Death, feared by his friends since he underwent a serious operation several months ago, claimed Premier John Oliver, and removed from the active political life of British Columbia, one of the province's strongest and most cherished leaders.

Premier Oliver had been in ill health since his return from the Mayo Hospital, Rochester, Minn., last spring, but his death came with abruptness. The Premier passed away before his doctor, who was hastily summoned, could reach his bedside.

Since the middle of July, Premier Oliver had been relieved of the active duties of his office following a caucus of the Liberal members, when Hon. J. D. MacLean, minister of finance and education, was chosen acting prime minister and leader designate of the Liberal Party in British Columbia.

During his years in office as chief minister, continuously since March, 1918, to his death, Premier Oliver incited many departures in social legislation and social welfare, and improvements to the educational system of the Province.

For the past five years a considerable portion of his time and attention was directed toward the prosecution of the British Columbia claim for freight rate reductions, and better terms from the Dominion.

A square-built man of enormous strength, he was proud of his humble origin and delighted in recalling the days of his plodding on bush farms in Ontario and British Columbia. A forceful speaker and ready debater, he loved a political argument and was never happier than when crossing swords with some opponent worthy of his steel across the floor of the Legislature. He possessed a ready wit and a keen sense of humor, delighting in and applauding any good natured thrust at himself from his opponents.

## Trade Treaty Signed

France and Germany Come To Agreement On Termit

Paris.—France and Germany have placed their signatures on a commercial treaty, based largely on most favored nation tariffs, after three years of frequently interrupted negotiations.

It is a complex arrangement of several thousand clauses, effective September 6. By the treaty France will get better terms on agricultural products, textiles, shoes, machinery, toll articles and porcelain, while Germany will benefit on chemicals, machinery, electrical goods, cement and leather work. Most favored nation treatment will be applied for both sides by December 31, 1928, at the latest.

France won the long coveted right to export a limited amount of wines to Germany on favorable terms.

## Wins Pacific Air Race

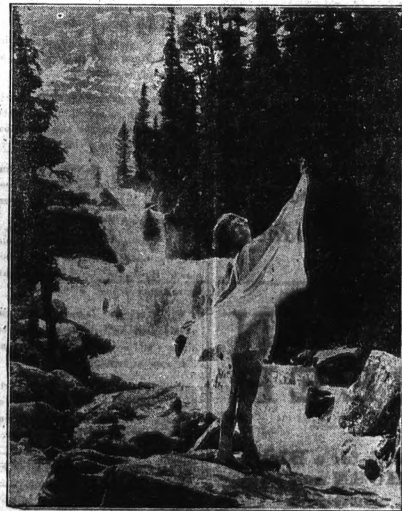

Art. Goebel, Hollywood Stunt Flyer, Takes First Prize

Wheeler Field, Honolulu.—Making a perfect landing at Wheeler Field, United States army aviation field 25 miles from Honolulu, the monoplane "Woolard," piloted by Art Goebel, Hollywood, Calif., stunt flyer, landed here to win first prize of \$25,000 in the 1000 air derby from Oakland, Cal., the first of its kind ever held. Goebel, who was accompanied by his wife, only Honolulu entrant, piloting the monoplane Aloha, also won the thousands of spectators at the end, winner of the \$20,000 offered on second prize.

Goebel, now in Honolulu, in the future will be recognized only as a stunt flyer, not as a pilot. He is a former aviator and stunt pilot, and is now a stunt pilot in the United States army aviation field. He is now a stunt pilot in the United States army aviation field. He is now a stunt pilot in the United States army aviation field.

### British Collieries Lose Heavy

London.—British collieries have lost 5,000,000 pounds since the beginning of the year until the end of June, and the losses which are growing monthly are due to the cost of coal on the continent and hence competition. In an effort to regain markets lost during the coal stoppage, collieries owners are selling their output below market price.

Dances to the Wind

"Moving to Melody" of wind in the pine and thundering waters that tumble down the Giant's Steps in Paradise Valley. The beautiful dancer is Miss Mona France and the stage with its rugged setting is to be found not far from the Chateau Lake Louise in the Canadian Rockies where Miss France has been holidaying.

## ADVERTISING HELPS TO

## KILL DULL SEASONS

An ingenious merchant discovered that the logical time to advertise extensively was when business was slow and in the periodic dull seasons of the year.

Before that discovery the average business man slowed down in his advertising when business slowed down. He generally ended up the dull seasons with a quarterly sale, but as far as his newspaper advertising was concerned, there was little advertising when business was quiet.

The modern up-to-date business man holds a different conception of the purposes and uses of newspaper advertising.

There are a few phases of business which have always been known to all business men. Among these are the alternating busy and dull periods of the year, month, week and day. A systematic, effective and economic plan of advertising had to be constructed upon a full knowledge of this business cycle. Extensive advertising has been found to be a remedy for the business depression epidemic.

People have a habit of confining their shopping to the last of the month, the last three days of the week and the later shopping hours of the day.

From experience, merchants have learned that newspaper advertising helps to eliminate the rush periods and spread the volume of business more evenly over the day, week, month and year. It has prevented congestion, simplified salesmanship and merchandising and increased business.

Will the finder of a book of tickets, the property of Fernie D.O.K.K., kindly leave same at The Enterprise office.

Mr. Cantalini, of Bellevue, has purchased the Corona hotel at Medicine Hat. The purchase price was around \$35,000.

The new Pythian castle hall at Kimberley has been completed and will be officially opened and dedicated shortly.

Members of the Mine Workers' Union of Canada have submitted a plan to the District 18, United Mine Workers of America-officials whereby the difficulty involved in having two unions functioning in one mine will be eliminated, stated Frank Wheatley, president of the Canadian organization, on Friday.

agreed to a referendum ballot being taken at all organized mines, with representatives of each union present to conduct the ballot, the organization receiving the majority of votes to take control of the mine workers' affairs in that district. This proposal is advocated by the Mine Workers of Canada as a means of eliminating dual unions, but the American unionists, he says, have so far steadfastly refused to consider the proposal.

An effort is being made to introduce, regarding the principles for of the Dominion Trades Congress at Edmonton next week, to receive its consideration and endorsement, but as the Mine Workers' Union of Canada has been refused affiliation with that body, it is regarded as doubtful whether such a proposal will receive consideration.

Reviewing the outlook for organized labor in Canada today, Mr. Wheatley declared it can truthfully be said that there is a growing determination against American domination in union affairs, as is shown by the interest taken in the newly formed All Canadian Congress of Labor, and the increased membership since its formation in March of this year. This, together with the numerous inquiries from organized labor bodies having headquarters in the United States, numbers 4000.

Mr. Wheatley has just returned from a visit to the Drumheller district, where the mines are re-opening for the coming season's domestic coal trade and miners are returning to their homes from the steam coal fields in preparation for this work.

The mine workers of Drumheller have organized a local union of the Mine Workers' Union of Canada to deal with wages and conditions among the workers in that field, he announced.

"General interest, Mr. Wheatley said, is being taken throughout the mining industry of Alberta and eastern British Columbia in preparation for the coming convention of the Mine Workers' Union of Canada, to be held in the month of November, when a wage policy will be decided upon for the Canadian mine workers.

The membership of the Mine Workers' Union of Canada, he said, at immediate official test of the report-

## ALBERTA STUDIES T. B. CURE

The provincial government of Alberta, it is announced, will start an immediate official test of the reported tuberculosis cure evolved by Dr. George Kirkpatrick, of Portland. This decision was recently reached at a conference between representatives of the provincial government and the University of Alberta and Dr. Kirkpatrick and Dr. Mack, of the Portland bureau of health.

Canadian officials decided to open the tests, following recent experiments by the Portland health bureau. George Hoadley, minister of agriculture of Alberta, Dr. P. R. Talbot, provincial veterinarian, and Dr. R. M. Shaw, associate professor of bacteriology at the University of Alberta, recently went to Portland to institute an enquiry, returning with a quantity of the serum sufficient for a test of twenty-five tubercular cows.

## HENRY FORD LOSSES

(Arthur Brisbane)

Change from one type of car to another with no cars selling in the meanwhile, is said to cost Henry Ford \$1,000,000 a day. Meanwhile General Motors is selling more than 100,000 Chevrolets a month.

Fortunately for him, Henry Ford can afford to lose \$1,000,000 a day, for a while, as he always keeps about \$400,000,000 cash in the bank.

There will be a big and interesting fight in automobiles when the new Ford car is unveiled.

## THOMAS F. PORTER

WILLS CHARITIES \$15,800

The will of Thomas F. Porter, former state senator and mayor of Lynn who died a month ago at North Conway, N.H., recently filed for probate at Salem by Henry R. Hurley, of Lynn, contains the following public bequests: Lynn hospital, \$1000, to be known as the Porter fund, the income to be used for general expenses; to the town of Paradise, N.S., his birthplace, \$1000; St. Stephen's Episcopal Church, Lynn, \$5000, the interest to be used annually in payment to carry on the work of the church; to the city of Lynn, \$2000, also to be known as the Porter Fund, the income to be used annually for the poor in that city on Christmas day.

Other bequests include \$100 each to the First Methodist Church of Swainsport, Golden Fleece lodge of Masons, Bay Street lodge of Odd Fellows, Palestine encampment, Peter Woodland lodge, Knights of Pythias, Lynn Lodge of Elks, Sagamore Tribe of Red Men and the Lynn Historical Society. To the All Saints' mission of Lynn, \$1000 is bequeathed, the interest to be used annually to pay the expenses of the mission.

Mr. Hurley, who with Chester H.

## THE STORY OF POLA NEGR'S GREATEST: "HOTEL IMPERIAL"

Following is the story of Pola Negri's latest and greatest production, the "Hotel Imperial," which will appear at the Orpheum Theatre on Saturday afternoon and night:

Six Hungarian Hussars, half dead from incessant fighting, ride wearily toward a frontier town. Suddenly, they discover it occupied by Russians. Lieutenant Paul Almasy orders them to fight through. His horse falls and Paul drags himself to the porter's lodge of the Hotel Imperial, where he drops off into slumber. Anna, Elias and Anton, the only servants left, carry him to a bedroom.

Awakened next morning by the tramp of boots, Anna persuades him to act as their waiter. It is his only chance! General Juschkiwitsch becomes infatuated with the girl, but she resists his advances. When they are about to arrest Paul, Anna tells the general that she can't run the hotel without a waiter. Elated at her apparent change of heart, he frees Paul, and gives her some beautiful gowns.

While celebrating a great victory, Paul pours wine for Anna, and accidentally lets the glass overflow. In a drunken fury, Juschkiwitsch strikes at him, with the result that wine is spilled over Anna's dress. The Russian gives her a key to his room where she will find something even more beautiful. At the same time, he orders Paul to bring champagne up. Anna, refusing to bow to his will, emerges from the chamber only to find that he has fallen asleep.

Meanwhile, Tabakowitsch, a spy, returns from the front, and orders Paul to prepare his bath. Knowing that this man has plans which may rout the Hungarian forces, Paul goes to Anna's room for a revolver. She follows and sees him enter. Overcome by the horror of his deed, Anna quickly makes it look as though Tabakowitsch has killed himself. In a rush of emotion, Paul takes her into his arms.

Refusing to believe the spy's death was a suicide, the general orders it investigated. Paul is told that he must explain his whereabouts at the time of the killing. Once more, Anna comes to the rescue by bravely declaring that he was with her. Juschkiwitsch rips the dress from her back. She helps Paul get through the lines to his own troops.

Then—the tide of battle turns. The Hungarians reclaim the town. While the entire army and populace is engaged in prayer on the cathedral steps, Almasy sees Anna, laughing and crying, wondering whether he will recognize her. Paul takes her to his commander and presents the "real hero."

Hon. John Oliver, premier of British Columbia, died suddenly at Victoria on Wednesday of last week, at the age of seventy-one.

Nanton burgesses voted favorably on the by-law to provide for the raising of \$10,000 for the new municipal skating and curling rink.

Judge E. P. McNeill, wife and daughter, of Calgary, who had been holidaying at Waterton Lakes, spent Sunday last in Blairmore.

The business of Revillon, Edmonton, has been purchased by the Ashdown Hardware Co., the purchase price being around \$350,000.

Mrs. Bond will re-open her classes on Monday, August 29th, for beginners and advanced pupils in piano. For appointments, Phone 301.

The funeral of the late Charlie Sang took place at Lethbridge on Tuesday afternoon, the remains being laid to rest in the Union cemetery.

Porter, son of the testator, is an executor of the will, said yesterday that Mr. Porter, while serving as a state senator, put aside his salary for a fund which might be used to establish a playground on High Rock in Lynn. His salary as mayor of Lynn was also put into the fund and added to that fund, under the will, \$5000 is given. —Evening News, Malden, Mass.

## BELIEVE THAT NAVAL ACCORD MAY YET COME

Geneva.—War between Great Britain, the United States and Japan is unthinkable, declared Hugh Gibson, chief representative of the United States at the closing session of the tripartite naval conference. Hence there is no reason, he added, why an agreement which has not been obtained at Geneva, should not be reached shortly as the result of direct negotiations between the Governments for a reconciliation of the divergent views.

The burial ceremony of the conference, held in the presence of a large assemblage, was carried out without the employment of words of reconciliation and as Right Hon. W. C. Bridgeman, head of the British delegation, said:

"We are not desiring in a spirit of bitterness or despair."

When the conference adjourned sine die after the adoption of a joint declaration, suggesting direct negotiations between the Governments, Mr. Bridgeman walked up the stairs of the Hotel des Bergues, in whose ballroom the last act of the naval drama was played, to the private office of Mr. Gibson and shook his colleague warmly by the hand. This was hailed as an indication that the First Lord of the British Admiralty believed the differences between the United States and Great Britain, manifest at the conference, were nothing more serious than a slight family tiff.

Admiral Salto, distinguished member of the Japanese delegation, joining in the thought of Mr. Gibson and Mr. Bridgeman, declared in a dictatorial address that he for one declined to view the results of the conference as a rupture of negotiations. He was convinced, he affirmed vigorously, that in some form or another, attempts to limit expansion and competition in naval building, already limited in practice by common sense, will continue and eventually succeed.

The joint declaration, adoption of which involves automatic adjournment of the conference, represents an effort to summarize the viewpoints of the three delegations on the matters on which they agreed and on those on which they disagreed. The declaration shows that the conference was successful on two points:

First, that of total tonnage limitation for cruisers, on which the British and the Americans were unable to attain an accord.

Second, on the problem of so-called "eight inch gun cruisers."

## Official Visit Will Terminate At Calgary

Remainder Of Canadian Trip Is Held Day For Prince

Ottawa.—By Prince of Wales plans to spend five days on his ranch in the foothills of the Rockies and then to visit Vancouver and Victoria before returning home. It is probable that he will sail for England from Quebec on Sept. 7.

When the Royal train reaches Calgary and the two Royal Princes part company from Premier Bennett, the official visit of the Prince in effect, terminates. The remainder of his stay in Canada is primarily a holiday, although His Royal Highness expects to fill a few engagements.

Re-Province Northern Post.

Ottawa.—The successful re-provisioning of Canada's farthest frontier police post, customs house and post office at Rango, British Columbia, on the west coast of Vancouver Island by the Steamship British is reported by a wireless message received at the North West Territories and Yukon branch of the Department of the Interior. This post is about the hundred miles south of the North Pole.

Aviators Reach Agreement

Paris.—Charles A. Levine, owner of the transatlantic plane Columbia, the newspapers stated today has formally accepted the terms of the provisional agreement under which Maurice Drouhin, the French flyer, will pilot the plane back to New York.

Will Not Attend

It is stated on good authority that Rudyard Kipling, famous English poet, will not attend the semi-centennial celebration of the faculty applied sciences and engineering to be held in Toronto on October 6 and 7.

Financial Aid For Queen Marie

Paris.—A Havre despatch from Bucharest says that the chamber of Deputies has voted a civil list which will give more money to Dowager Queen Marie from the state treasury than to King King Michael.

W. N. U. 168P

## Poultry Congress Closes

Retiring President Receives Honorary Degree From McGill University

Ottawa.—With speeches expressing international goodwill and with a touching tribute to the retiring president, Edward Browne of England, the third World Poultry Congress concluded its business sessions.

Interesting announcements which featured the closing were:

Edward Browne, F.L.S. of London, England, president and founder of the World Poultry Congress, will have an honorary degree conferred on him by McGill University, Montreal, at a special convocation.

Their Excellencies Viscount and Lady Willington will shortly build up a flock of poultry of a breed which Her Excellency particularly fancies, as an outcome of the congress.

Ottawa Centenary club may be taken to England in 1930, en bloc, to take part in the fourth world's poultry congress to be held in London.

United States poultry men are discussing chartering four ocean liners to carry them and their exhibits to the next world's poultry congress in London.

President Ernest Brown read messages from crowned heads of Europe and other distinguished personages, congratulating the congress upon its outstanding success at Ottawa.

## Increase In Tourist Traffic

Canadian Rockies Great Drawing Card Says Railway Official

Winnipeg.—That tourists travel this season was in excess of previous years, and that visitors were coming to Canada from all parts of the world, was stated here by C. E. Usher, general passenger traffic manager of the Canadian Pacific Railway.

Mr. Usher, who has just completed a tour of inspection of the company's famous summer resorts at Banff and Lake Louise, said that more people were visiting the Canadian Rockies than ever before, and that indications pointed to a steadily increasing traffic from year to year.

Mr. Usher was optimistic with regard to conditions throughout the country and was of the opinion that business in the Pacific coast and on the prairies was such as to give cause for general satisfaction.

## Baldwin Celebrates Sixtieth Birthday

King and Queen Send Greetings To British Premier

Ottawa.—August 3 was the right day, Stanley Baldwin's 60th birthday and hundreds of congratulatory messages poured into Rideau Hall all day. Among them were messages from the King and Queen, expressing to the premier of Great Britain their congratulations on his 60th birthday.

He was presented with a silver salver by members of his staff, tokens of esteem from their Royal Highnesses, the Prince of Wales and Prince George and their Imperial Highnesses, the Duke and Duchess of York, and a beautifully gold-mounted cherrywood pipe from Rt. Hon. Mackenzie King.

Great Wealth In Peace River

Vancouver.—In the Peace River section is unexploited wealth, "Hon. Dr. J. H. King, Minister of Health and Soldiers' Civil Re-establishment, said here "Just as soon as ways and means can be found the problem must be dealt with. I intend visiting Edmonton before returning to Ottawa and am seriously thinking of making a trip into the Peace River area."

Held Night Session

Dublin.—The Dail Eireann decided by a vote of 54 to 24 to sit all night for the purpose of passing the government's drastic public safety bill. The bill was introduced by Mr. President William Cosgrave, after the recent assassination of Vice-President Kevin O'Higgins. Under the bill the death penalty may be imposed for the possession of arms.

Report Is Denied

Ottawa.—A report which has appeared in a portion of the press to the effect that Right Hon. Stanley Baldwin has accepted a gift of a motor car made especially for him by the Canadian visit was emphatically denied by members of the British Premier's staff. There was said to be absolutely no foundation for the report.

Promotions Approved

Regina.—Among the promotions and transfers, approved by the Civil Service Commission are the following: Arthur Patterson, Prince Albert, from grade 3 clerk to grade 4; George Barrett, forest ranger, grade 2; Grand Coulee; Walter Pettie, to be radio inspector or radio electrician, Regina.

## Rockefeller Asked To Cancel Soviet Deals

British Group Want Oil Investment Withdrawn Is Report

New York.—The New York Herald Tribune says that an appeal to John D. Rockefeller, Jr., active leader of the far-flung Standard Oil empire, to withdraw from any financial deals made by Sir Henri Deterding, managing director of the Royal Dutch Shell Oil group, of Great Britain. The appeal was made after the Royal Dutch group had been unable to block two large United States oil companies, members of the Standard Oil group, from entering into oil contracts with the Soviet.

In his letter Sir Henri is understood to have appealed to Mr. Rockefeller's interest in churches and philanthropic work, pointing out that the Soviet had destroyed churches and similar institutions, as well as having confiscated property and nationalized all industry.

Held Justified In Killing

Beeton, Ont.—Alex. Fongue was justified in killing Dan Forsyth when the latter invaded his home near here July 22, the coroner's jury inquiring into the case decided. The verdict read: "The jury sworn in to enquire into the death of an unknown man have arrived at the conclusion that the said man was none other than Dan Forsyth and that he came to his death at the hands of Alex. Fongue, who acted in defence of his own life, and we deem him justified."

A Distinguished Visitor

London.—Canada is to have yet another distinguished English visitor in a short time. Lord Howard of Effingham, chief justice of England. He will attend the annual meeting of the Canadian Bar Association in Toronto, which will open on August 24. Lord Howard has held the present high office since 1922, when he stepped up from the attorney-generalship after having been attorney-general from 1919.

MALCOLM GEDDES

LOSES HIS LIFE ON

LEFROY GLACIER

Calgary.—Malcolm D. Geddes, a Calgary, veteran member of the Alpine Club of Canada, was pitched 2,000 feet to his death when he attempted to glissade down the Lefroy glacier, near Lake Louise. This is a desperate glacier and once Mr. Geddes started he found it was impossible to check his flight. First he was thrown, then his ice pick was torn from his hands and with terrific speed he was carried over the ice ledge and hurled to the rocks and ice far below.

Mr. Geddes was conducting a private party and a guide had not been taken along. He led his friends to Mount Lefroy peak, a feat that was not difficult for him. In the light of his experience in climbing this particular mountain, and it was on the downward journey that the tragedy occurred. The expedition had no connection with the Alpine Club of Canada.

Mr. Geddes was one of Calgary's best known business men. He was editor and vice-president of the Farm and Ranch Review, and was president of United Oils, Limited.

Flight Lieutenant C. K. Carr and Flying Officer E. Q. Dearth, neither of whom, it was stated, was badly hurt, were taken to Ashbach, near Lutz.

Non-Stop Flight Fails

British Aviator On Secret Trip To India Crashes

London.—The British air ministry announced that an attempt of a Royal Air Force machine to make a non-stop flight to India ended when the plane fell into the Danube River, in Austria.

Despatches from Vienna reported that the plane fell at Sauerberg near Lutz, the crash being believed to be caused by the over heating of the motor.

Flight Lieutenant C. K. Carr and Flying Officer E. Q. Dearth, neither of whom, it was stated, was badly hurt, were taken to Ashbach, near Lutz.

University Students Turn Harvesters

These alert and busy lads are British University students here for the harvest. They came to Canada aboard the Canadian Pacific steamer Montreal, arriving in Quebec and Montreal recently. While awaiting their jobs in the harvest fields of Saskatchewan, they have been placed on Ontario farms during the harvest season, by Ontario Government agents. They will return to their respective colleges in England and Wales towards the end of October.

The universities represented in this first "University Harvesters' Tour" of the present season—for others are following—are: Cambridge University, King's College, London, the London School of Economics, University College, London, Manchester School of Technology, Oxford, Reading, Southampton, and Swansea. Half of the students are from Agricultural Colleges or Faculties, most of them are from the classical side.

## CROP CONDITIONS ARE FAVORABLE IN ALL DISTRICTS

Ottawa.—Canada's crops are in good condition. A report issued by the Dominion Bureau of Statistics based on telegrams giving the condition of crops at the end of July shows that the crop situation in every province is favorable.

The following is the report based on individual provinces:

Alberta.—July favorable. Abundant moisture. Slight hail damage. Wheat cutting not begun until late August. Much late grain. Pastures luxuriant. Heavy hay crop but low natural meadows too wet to cut. Vigorous straw growth. Promise of a high average grain yield if everything proceeds favorably and rust does not develop.

Saskatchewan.—Favorable weather over the province has a whole resulted in strong growth of all grain. Wheat, although later than last year is reported in healthy condition with a generally even stand. Aided by the wet weather of the past week, about 70 per cent. is now headed out. Coarse grains are also in good condition with oats coming into head. Slight traces of rust have appeared in the south and eastern parts of the province, being most noticeable along the line from Verwood east to Weyburn, and from the north to Vankin. Hail caused damage to small areas at scattered points throughout the north and northwestern parts of the province. Severe damage was sustained as a result of a storm originating west of Swift Current, which travelled in a south-easterly direction and caused serious injury in the Vanguard, Kincaid and LaFleche districts. Summer-fallowing is about 90 per cent. completed. Pastures are in good condition with a splendid supply of moisture.

Manitoba.—Crops conditions on July 31 encouraging. Wheat and barley all in head. Oats 75 per cent. headed. All grain filling well. Rye harvest started. Pastures rank and hay crop being cut. Hail damage in restricted areas. Prospects for good increase in yield over 1928. Crop conditions in southern Alberta encouraging except for danger of frost before late fields ripen.

British Columbia.—All crops ripening fast. Harvesting rye well advanced. Wheat cutting commencing. Will be general in week's time. Cereal yields will be well above average. Hay crops promising. Early estimates of 50 per cent. apple crop still holds good with prospects of a slight increase when harvesting completed.

Ontario.—Crops conditions on July 31 encouraging. Wheat and barley all in head. Oats 75 per cent. headed. All grain filling well. Rye harvest started. Pastures rank and hay crop being cut. Hail damage in restricted areas. Prospects for good increase in yield over 1928. Crop conditions in southern Alberta encouraging except for danger of frost before late fields ripen.

Quebec.—Crops conditions on July 31 encouraging. Wheat and barley all in head. Oats 75 per cent. headed. All grain filling well. Rye harvest started. Pastures rank and hay crop being cut. Hail damage in restricted areas. Prospects for good increase in yield over 1928. Crop conditions in southern Alberta encouraging except for danger of frost before late fields ripen.

Atlantic Provinces.—Crops conditions on July 31 encouraging. Wheat and barley all in head. Oats 75 per cent. headed. All grain filling well. Rye harvest started. Pastures rank and hay crop being cut. Hail damage in restricted areas. Prospects for good increase in yield over 1928. Crop conditions in southern Alberta encouraging except for danger of frost before late fields ripen.

Northwest Territories.—Crops conditions on July 31 encouraging. Wheat and barley all in head. Oats 75 per cent. headed. All grain filling well. Rye harvest started. Pastures rank and hay crop being cut. Hail damage in restricted areas. Prospects for good increase in yield over 1928. Crop conditions in southern Alberta encouraging except for danger of frost before late fields ripen.

Yukon.—Crops conditions on July 31 encouraging. Wheat and barley all in head. Oats 75 per cent. headed. All grain filling well. Rye harvest started. Pastures rank and hay crop being cut. Hail damage in restricted areas. Prospects for good increase in yield over 1928. Crop conditions in southern Alberta encouraging except for danger of frost before late fields ripen.

Nunavut.—Crops conditions on July 31 encouraging. Wheat and barley all in head. Oats 75 per cent. headed. All grain filling well. Rye harvest started. Pastures rank and hay crop being cut. Hail damage in restricted areas. Prospects for good increase in yield over 1928. Crop conditions in southern Alberta encouraging except for danger of frost before late fields ripen.

Northwest Territories.—Crops conditions on July 31 encouraging. Wheat and barley all in head. Oats 75 per cent. headed. All grain filling well. Rye harvest started. Pastures rank and hay crop being cut. Hail damage in restricted areas. Prospects for good increase in yield over 1928. Crop conditions in southern Alberta encouraging except for danger of frost before late fields ripen.

Yukon.—Crops conditions on July 31 encouraging. Wheat and barley all in head. Oats 75 per cent. headed. All grain filling well. Rye harvest started. Pastures rank and hay crop being cut. Hail damage in restricted areas. Prospects for good increase in yield over 1928. Crop conditions in southern Alberta encouraging except for danger of frost before late fields ripen.

Nunavut.—Crops conditions on July 31 encouraging. Wheat and barley all in head. Oats 75 per cent. headed. All grain filling well. Rye harvest started. Pastures rank and hay crop being cut. Hail damage in restricted areas. Prospects for good increase in yield over 1928. Crop conditions in southern Alberta encouraging except for danger of frost before late fields ripen.

Northwest Territories.—Crops conditions on July 31 encouraging. Wheat and barley all in head. Oats 75 per cent. headed. All grain filling well. Rye harvest started. Pastures rank and hay crop being cut. Hail damage in restricted areas. Prospects for good increase in yield over 1928. Crop conditions in southern Alberta encouraging except for danger of frost before late fields ripen.

Yukon.—Crops conditions on July 31 encouraging. Wheat and barley all in head. Oats 75 per cent. headed. All grain filling well. Rye harvest started. Pastures rank and hay crop being cut. Hail damage in restricted areas. Prospects for good increase in yield over 1928. Crop conditions in southern Alberta encouraging except for danger of frost before late fields ripen.

Nunavut.—Crops conditions on July 31 encouraging. Wheat and barley all in head. Oats 75 per cent. headed. All grain filling well. Rye harvest started. Pastures rank and hay crop being cut. Hail damage in restricted areas. Prospects for good increase in yield over 1928. Crop conditions in southern Alberta encouraging except for danger of frost before late fields ripen.

Northwest Territories.—Crops conditions on July 31 encouraging. Wheat and barley all in head. Oats 75 per cent. headed. All grain filling well. Rye harvest started. Pastures rank and hay crop being cut. Hail damage in restricted areas. Prospects for good increase in yield over 1928. Crop conditions in southern Alberta encouraging except for danger of frost before late fields ripen.

Yukon.—Crops conditions on July 31 encouraging. Wheat and barley all in head. Oats 75 per cent. headed. All grain filling well. Rye harvest started. Pastures rank and hay crop being cut. Hail damage in restricted areas. Prospects for good increase in yield over 1928. Crop conditions in southern Alberta encouraging except for danger of frost before late fields ripen.

Nunavut.—Crops conditions on July 31 encouraging. Wheat and barley all in head. Oats 75 per cent. headed. All grain filling well. Rye harvest started. Pastures rank and hay crop being cut. Hail damage in restricted areas. Prospects for good increase in yield over 1928. Crop conditions in southern Alberta encouraging except for danger of frost before late fields ripen.

Northwest Territories.—Crops conditions on July 31 encouraging. Wheat and barley all in head. Oats 75 per cent. headed. All grain filling well. Rye harvest started. Pastures rank and hay crop being cut. Hail damage in restricted areas. Prospects for good increase in yield over 1928. Crop conditions in southern Alberta encouraging except for danger of frost before late fields ripen.

Yukon.—Crops conditions on July 31 encouraging. Wheat and barley all in head. Oats 75 per cent. headed. All grain filling well. Rye harvest started. Pastures rank and hay crop being cut. Hail damage in restricted areas. Prospects for good increase in yield over 1928. Crop conditions in southern Alberta encouraging except for danger of frost before late fields ripen.

Nunavut.—Crops conditions on July 31 encouraging. Wheat and barley all in head. Oats 75 per cent. headed. All grain filling well. Rye harvest started. Pastures rank and hay crop being cut. Hail damage in restricted areas. Prospects for good increase in yield over 1928. Crop conditions in southern Alberta encouraging except for danger of frost before late fields ripen.

Northwest Territories.—Crops conditions on July 31 encouraging. Wheat and barley all in head. Oats 75 per cent. headed. All grain filling well. Rye harvest started. Pastures rank and hay crop being cut. Hail damage in restricted areas. Prospects for good increase in yield over 1928. Crop conditions in southern Alberta encouraging except for danger of frost before late fields ripen.

Yukon.—Crops conditions on July 31 encouraging. Wheat and barley all in head. Oats 75 per cent. headed. All grain filling well. Rye harvest started. Pastures rank and hay crop being cut. Hail damage in restricted areas. Prospects for good increase in yield over 1928. Crop conditions in southern Alberta encouraging except for danger of frost before late fields ripen.

Nunavut.—Crops conditions on July 31 encouraging. Wheat and barley all in head. Oats 75 per cent. headed. All grain filling well. Rye harvest started. Pastures rank and hay crop being cut. Hail damage in restricted areas. Prospects for good increase in yield over 1928. Crop conditions in southern Alberta encouraging except for danger of frost before late fields ripen.

Northwest Territories.—Crops conditions on July 31 encouraging. Wheat and barley all in head. Oats 75 per cent. headed. All grain filling well. Rye harvest started. Pastures rank and hay crop being cut. Hail damage in restricted areas. Prospects for good increase in yield over 1928. Crop conditions in southern Alberta encouraging except for danger of frost before late fields ripen.

Yukon.—Crops conditions on July 31 encouraging. Wheat and barley all in head. Oats 75 per cent. headed. All grain filling well. Rye harvest started. Pastures rank and hay crop being cut. Hail damage in restricted areas. Prospects for good increase in yield over 1928. Crop conditions in southern Alberta encouraging except for danger of frost before late fields ripen.

Nunavut.—Crops conditions on July 31 encouraging. Wheat and barley all in head. Oats 75 per cent. headed. All grain filling well. Rye harvest started. Pastures rank and hay crop being cut. Hail damage in restricted areas. Prospects for good increase in yield over 1928. Crop conditions in southern Alberta encouraging except for danger of frost before late fields ripen.

Northwest Territories.—Crops conditions on July 31 encouraging. Wheat and barley all in head. Oats 75 per cent. headed. All grain filling well. Rye harvest started. Pastures rank and hay crop being cut. Hail damage in restricted areas. Prospects for good increase in yield over 1928. Crop conditions in southern Alberta encouraging except for danger of frost before late fields ripen.

Yukon.—Crops conditions on July 31 encouraging. Wheat and barley all in head. Oats 75 per cent. headed. All grain filling well. Rye harvest started. Pastures rank and hay crop being cut. Hail damage in restricted areas. Prospects for good increase in yield over 1928. Crop conditions in southern Alberta encouraging except for danger of frost before late fields ripen.

Nunavut.—Crops conditions on July 31 encouraging. Wheat and barley all in head. Oats 75 per cent. headed. All grain filling well. Rye harvest started. Pastures rank and hay crop being cut. Hail damage in restricted areas. Prospects for good increase in yield over 1928. Crop conditions in southern Alberta encouraging except for danger of frost before late fields ripen.

Northwest Territories.—Crops conditions on July 31 encouraging. Wheat and barley all in head. Oats 75 per cent. headed. All grain filling well. Rye harvest started. Pastures rank and hay crop being cut. Hail damage in restricted areas. Prospects for good increase in yield over 1928. Crop conditions in southern Alberta encouraging except for danger of frost before late fields ripen.

Yukon.—Crops conditions on July 31 encouraging. Wheat and barley all in head. Oats 75 per cent. headed. All grain filling well. Rye harvest started. Pastures rank and hay crop being cut. Hail damage in restricted areas. Prospects for good increase in yield over 1928. Crop conditions in southern Alberta encouraging except for danger of frost before late fields ripen.

Nunavut.—Crops conditions on July 31 encouraging. Wheat and barley all in head. Oats 75 per cent. headed. All grain filling well. Rye harvest started. Pastures rank and hay crop being cut. Crop conditions in southern Alberta encouraging except for danger of frost before late fields ripen.</

## Another Firm Out of Business

Just one of the news items which are appearing in papers quite too often these days throughout the Dominion. And what is the reason? There is only one, and that is lack of loyalty to home institutions and the lure of the flashing publicity of the large city establishments. Many citizens, while earning their wages and salaries in one place, nevertheless send a large proportion of this money out of the community for questionable bargains, thus depriving such community of that much necessary working capital.

## Business Men Do the Same

They have local firms who are able and ready to supply them with all their requirements, yet for the most trivial reason or excuse they will consent to extend this patronage to outside firms, thus helping to build up distant cities at the expense of their home town. They seem to forget that this money so sent out might otherwise have been largely returned to them by those with whom they should have left this business. Therefore, when in need of printed matter of any kind, whether farmer, business man or professional man, always extend first consideration to

## The Blaimore Enterprise

313 Manning Chambers, Toronto

### A NEWSPAPER'S DIFFERENT

An exchange says that running a newspaper is like running a hotel—only it is different.

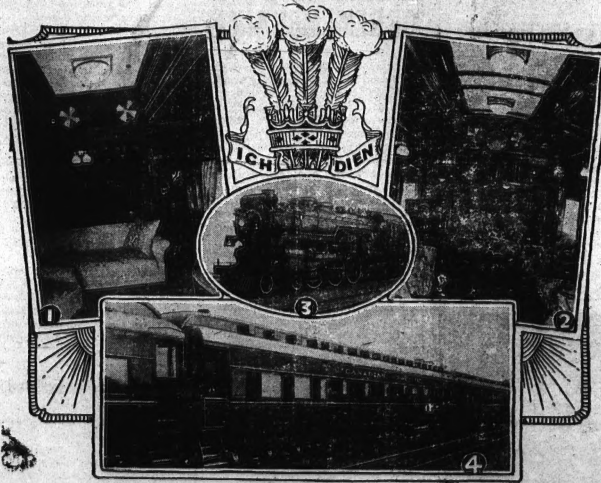

When a man gets into a hotel and finds something on the table that he doesn't like, he does not kick all the fat into the fire and tell the landlord to stop his hotel. Well, hardly. He

just pushes that dish aside and wades into some other brand of eatables.

But it is different with some people who consider themselves newspaper readers. They find an item they don't like, and without stopping to think that it may please a lot of other people, make a grandstand play and stop their paper. The paper doesn't stop, but that particular gentleman's

copy fails to reach his next issue and he is sure to sneak around to borrow his neighbor's copy, "just to see if the paper is still published," you know. The paper still glides on, however, and new subscribers line up in place of the dyspeptic who stopped his source of information because a small part of it didn't suit him.

## Royal Train Is Canadian Pacific's Finest

1. The lounge room on the Prince's car "Strathcona." 2. Interior of lounge section of the "Mount Stephen," one of the private cars at the disposal of the Prince. 3. Dining room section of the "Westworth," one of the private cars used by Premier Baldwin. 4. Section of the Royal train showing the "Westworth," one of the private cars used by Premier Baldwin.

UNDoubtedly the finest train ever assembled for any occasion bore their Royal Highnesses The Prince of Wales, Prince George, and Premier and Mrs. Baldwin from the Windsor Street Station in Montreal recently on their journey westward across the Continent. From their observation platform at the rear of the "Mount Stephen," where the Prince of Wales will smile his greetings to thousands of Canadians across the Dominion, to the private cars placed at the disposal of Premier Baldwin, the train resembled more in appointment the most exclusive club, finishing and appointments being in every way fitting for such distinguished guests of Canada.

Days before the Empress of Australia, bearing the Prince and Premier to Quebec, steamed up the

gray waters of the St. Lawrence, the yards of the Canadian Pacific were a scene of more than usual activity, interest centering around the Royal train being assembled there. The finest private cars of the Company were assembled, the Mount Stephen and the Strathcona for Their Royal Highnesses, the Westworth and the Killarney for Premier and Mrs. Baldwin. The Superland and the Van Horne were placed at the disposal of Premier King and members of the Prince's party. The Mount Stephen used by the Prince as a general lounge car is finished in walnut, the glassware and silver fittings being set off by blue toned rugs, hangings and upholstery. The Strathcona, containing the sleeping quarters of the

Prince of Wales and Prince George, is also finished in dark walnut. The coverings of the beds are in royal blue while those of their sides-de-camp are in water blue of a shaded silk. Premier Baldwin's private cars, located near the front of the train, are furnished in the same manner, supplied with radio and Orthophonic. The Westworth is finished in mahogany while the Killarney is in walnut. In addition to the private cars are a number of compartment Glen cars for the use of officials and others who will accompany the train across the continent. The most powerful locomotives in use on the C.P.R. will haul the special train during the major part of the journey across Canada to the Rockies, this being the C-3-d type of the 2300 class.

### Here and There

Nineteen ex-service men's families sent out to Canada by the British Empire Service League, arrived at Quebec recently on the Canadian Pacific liner "Montrosa." These families, totalling in all about 100 persons, have been carefully selected and have been given training at the Ministry of Labor's Training Farm at Brandon, Suffolk, England. The men will carry on farming in the Western part of the Dominion.

A unique "Seeing Canada" expedition will set out from Ottawa on August 4 this year to visit the principal points of interest in the provinces from the Atlantic to the Pacific. The party to make the tour will include a selected number of delegates to the World's Poultry Congress, to be held at Ottawa in July. Practically all the nations of the world will be represented, and the party will journey first to the eastern part of the Dominion over the Canadian Pacific lines.

Record wool clip and wheat output for the past year have placed Australia in a condition of prosperity that was never so great as at present, according to J. M. Myres, correspondent of the London "Daily Telegraph," who interviewed at the headquarters of the Canadian Pacific Railway in Montreal recently on his way from the Commonwealth to England. He estimated that the exports from Australia had probably reached a record figure.

The farthest north settlement in the world, Bache peninsula, is cheered by radio programmes. Situated in the Arctic Ocean, 750 miles above the Arctic circle, this far-flung outpost is situated ten and one-half degrees off the North Pole. Here there is a post of the Royal Canadian Mounted Police, the garrison consisting of Sergeant Joy, two constables, and a few Eskimos. From November to March they do not see sunlight. Their one great pleasure is in listening to radio programmes from the outside world.

A unique musical event will take place at the Chateau Frontenac, Quebec, May 20 to 22, when a folk song and handicraft festival will be held. The songs will be sung by local singers, famous for their knowledge of traditional airs of Old Quebec. French-Canadian folk songs are gaining in popularity throughout the country since so many of them have been translated into English by John Murray Gibbon, of Montreal. Charles Marchand, one of the outstanding interpreters of these old-time songs, will figure prominently at the coming musical festival.

President Coolidge's natal State, Vermont, has been brought vividly to the attention of the Middle West, Ontario and Quebec by a special train, known as the Vermont Maple Sugar Special, which has been touring the western states and which visited Ontario and Quebec in the latter part of April, carrying special exhibits of Vermont products and also a car of Canadian Pacific exhibits. Governor John E. Weeks, Vermont's chief executive, and Mrs. Weeks, together with his staff, the United States Senator for Vermont, and many other State legislators and representatives of leading business interests, were aboard the train during its extended tour.

Sidelights on the Chinese situation were thrown by travellers from a trip around the world, who arrived at the Windsor street station in Montreal recently, on the last lap of their journey. They were: Harrison Williams, well-known public utilities financier of New York; Paul Cravath, general counsel of the Missouri Pacific Railroad; and Colonel E. B. Worgan, of the Indian army, who had joined the trip at Madras. Mr. Cravath was in Shanghai, his arrival corresponding with the capture of the city by the Nationalist forces. Mr. Cravath stated that he had not heard a shot fired on that day, and would not have been aware he was in a city taken in open war if he had not been informed of the fact.

### There is No More

The steamer was just leaving the pier when a man rushed up and shouted: "Hold on a minute, Captain; there is a party of fifty coming aboard."

The steamer docked once again, and the individual strode up the gangplank.

"Where's the rest of the party?" asked the captain.

"I'm the party! I'm just fifty to day."

### PEDESTRIAN MORE MOBILE THAN CAR AND HASN'T RIGHT-OF-WAY

A recent judgment of Chief Justice Gordon Hunter, of British Columbia, is of interest to both motorists and pedestrians, for it defines the rights of each on the highway. The chief justice gave the definitions in dismissing an action of Arvid Johnston, of Vancouver, for \$25,000 damages against James Elliot of the same city, according to the report received by the legal department of the Motor League. Johnston, the evidence showed, was struck and injured near an intersection by a car driven by Elliot.

His lordship emphasized that a pedestrian is more mobile than a motor car driver, and he also stated that the idea that a pedestrian has a paramount right-of-way is misleading. Both pedestrians and automobile drivers are under an equal duty to be careful to avoid collisions, he said.

"In those days," his lordship declared in giving judgment, "life upon the highway seems to constitute a series of escapes—sometimes by the fraction of a foot and by the fraction of a second."

"Since the advent of the motor car care is required both on the part of the car driver and the foot passenger, and in connection with the degree of care I might point out a factor that it is apt to be forgotten—that the mobility of the pedestrian is greater than the mobility of the motor car driver, just as the mobility of the motor car driver is greater than the mobility of the street car driver. In other words, just as the automobile driver has a relatively greater degree of control than the street car driver, so every normal person walking has a greater degree of control over the situation than when driving an automobile. He can stop or get in motion quicker than the machine and therefore is bound to use this superior power to prevent injury to himself or others. In attempting to cross a main thoroughfare at rush hours where there is no officer in control of the traffic, he has the power of deciding when he will start and he is bound to use this power in accordance with the exigencies of the situation and not to run foolish or unnecessary risks.

"Had the case been that of a young child or an aged person, liable to be confused by the roar of the traffic, I might be a question as to whether a driver would not be bound to stop, if at all possible, so as to avoid a collision and not take any chances, but I cannot see that the defendant was bound to anticipate that a normal man of twenty-five, with nothing to indicate that he was not in full possession of his senses, would make the false move he did. In doing this he returned on what was obviously the dangerous side of the highway, instead of getting away, as he quickly could have done, out of the zone of danger."

"The idea that the pedestrian has a paramount right-of-way is misleading. He has a right not to be carelessly knocked down if he himself uses due care. Both are under a 'equal duty' to be careful to avoid collisions. If the pedestrian is encouraged in the notion that he can please himself about the time, place and mode of his march across a main highway regardless of the conditions, not only will the traffic become very badly congested, but there inevitably will be a large increase in the number of accidents."—Ex.

### A SCOTS-VERSION

A wee fond lamkin Mary had, Its fleece a snowdrift pure, An' lik' airt that Mary said, There gae'd the lamb demure.

An' faithful to her liltin' pae, The Dame School's stertal pae, Syne moun't, wi' airy skip, a stool

Loud laugh the bonny lassel!

The Dame, altho' wi' twinklin' e'e

Moun't turn the chiel cothye—

Whaur bides he close, a loyal swain

That loves, nor reasons why.

### NEWS NOT FIT TO PRINT

While the newspapers do a public service in publishing "all the news that is fit to print," they do a national dis-service and reduce the aim of public confidence in them, when they publish calumny tales which are overdrawn or untrue. Owing to the speed pressure under which all newspapers and their employees work, slight errors in fact are occasionally unavoidable, but deliberate efforts to manufacture sensations and fallacious news-gathering associations or newspapers to verify rumors are deserving of severe censure.

July "Forest and Outdoors," a semi-official publication, makes a timely protest, for example, against a story sent to important Canadian newspapers six weeks ago with news that there was a "Big Forest Fire Raging in the Matapedia Valley." The newspaper story told of hundreds of members of the forest protection service, assisted by farmers, working hard but vainly to prevent the spread. The actual fire consisted of a house and building being burned and a spread in a very small area of forest land. Yet the story said: "It's spreading at a rapid rate all along the transmission line."

"Forest and Outdoors" claims that Americans seeing in this newspaper a head-line such as "Canada in Grip of Fire Plend," or "Awful Bush Fire Ravages Canada's Northland," decided not to take that motor or train trip to Canada for his vacation. "A trans fire of no economic consequence" may tempt the local correspondent to tip his pen in hyperbole, but that same grass fire once put on the wires to the United States papers may cost Canada thousands of dollars in cancelled tourist traffic. It would seem a very simple alliment to cure if the papers of Canada's newspapers and the controllers of wire services sent down definite instructions that "All he news that's fit to print, does not contemplate calamity brain storms." The nation-building job in Canada is tough enough proposition. Canada's attractions need no exaggeration to make the world our helpful partner. But our free-will broadcasting of self-lauder and detraction is thoroughly bad business." Saturday Night.

### BUTTERFLY TONGUES LONG

The tongues of butterflies and moths are marvelous adaptations to their needs as nectar sipers, says the National Geographic Magazine. Some, as in the case of several of the sphinx moths, may be as much as six inches long, two or three times the length of the insects' bodies. When not in use they coil up like the hairsprings of watches and are concealed under little hairy tips protruding on either side of the collar.

The tongue consists of two sections, a joined together that the groove on the inner side of each forms one-half of the hollow tube they jointly make. Through this the insect draws the nectar out of the flowers much as we draw ink out of a bottle with a fountain-pen dropper.

In many cases these tongues are so long that in the pupal cases special coverings are provided for them. The natives of the south, noting the similarity of these tongue cases to wind instruments, call the pupae bearing them "horn-blowers." The mouth parts of the scale-wing order range from this high specialization on down to the simple biting kinds, such as are possessed by locusts and beetles.

In some of the butterflies and moths, like the silkworm moth, the period of adult existence is so short that they never eat. Consequently their mouth parts have completely atrophied and starvation would be their inevitable fate if early death in other forms did not sooner supervene.

Doesn't the editor of a small paper have lots of fun: Three days a week he tries to fill his paper with news and the other three he tries to pay for filling it. It is a great life, but it would be made a lot easier if your subscription was paid.

## THE BAGPIPES IN ROCKIES

Seldom does the sheltered town of Banff, situated comfortably among the towering Rockies of Alberta, come into the news of the day. It is not in the nature of summer resorts to find themselves in the public notice as doers of things. Yet they render a very real service in drawing people away for a brief spell from the noise and clamor of the city, and transferring their interest to the natural grandeur of the country. Banff soon will take on an aspect of the Old World. For three days there is to be a Scottish gathering, at which the skill of the pipes will echo in the valleys, and scenes common in Scotland's hills will be re-enacted with all the fervor of a Caledonian gathering.

Highland regiments from all over Canada will enter the bagpipe contest. Border and Highland ballads will be rendered, and Gaelic songs with all their charm, will be sung in appropriate surroundings. The music has been arranged with an eye to historical sequence. Old ballads of the fourteenth and fifteenth centuries take precedence. Then come groups of songs of the period of Mary Queen of Scots, the Stuarts and the Jacobites. These will be followed by the songs of Robert Burns, Sir Walter Scott, Lady Nairne and Christopher North. All over the town the kill and the plaid will predominate.

Scottish gatherings are not uncommon in Canada. Of local interest as a rule, they last but a single day. Not so the festival at Banff. It is to be of a national character, and will combine all that is colorful and best as such gatherings. It is a venture which will be followed with interest not only in Canada, but everywhere the Scotchman reside, for while the adopted land of the emigrant claims the major share of his interest, there is always a warm spot in his heart for the land of his origin and all that concerns it—Christian Science Monitor.

A lady on a shopping tour the other day told the following story while selecting a tea infuser:

She was busy sewing one afternoon and her little daughter, Jane, was playing with her dolls near her when she said: "Jane, I am so tired."

Jane looked up at her mother and said: "Wouldn't you like to have a cup of tea, Mother?"

"Indeed I would, Jane, but I have no time to make any just now," replied Mother.

"If you will tell me how, I will make it for you," said little Jane.

So Mother explained just how to make it and Jane went off to make the tea. In a short time Jane returned with the cup of tea, in which were many tea leaves, but Mother drank it and told Jane how good it was. Jane wanted to bring her another cup of tea and she told her: "Yes, I would like another cup of tea, but sister Jane, you see the tea leaves in this cup. Now the next time you pour the tea into the cup through the tea strainer in the drawer and then the tea leaves won't get into the cup and the tea will look so much nicer. You know how I use the strainer, don't you?"

"Yes, I do, and you just see, there will not be one leaf in the cup this time," replied Jane.

Sure enough, the next cup of tea looked so nice and after she had finished drinking it she said: "Now, see Jane, the tea looked so much nicer without the tea leaves and it tasted better too."

"Well, you know, Mother, I could not find that tea strainer anywhere, so I just used the fly swatter."

A little girl walked into a dry goods store wishing to see the remnants at the remnant counter. Going up to the dry goods clerk, she said: "Mister, may I view your remains?"

Mr. Robert Maynard, of the general office staff of P. Burns & Co., Calgary, stopped off in Blairmore on Monday, returning from Cranbrook, where on Sunday he attended the funeral of the late Mr. L.M. Sive.

## SIGNS SEEN ON THE

## WHY KEEP UP THIS TALK?

There are three things for which Canadian orators should be punished by either fine or imprisonment. One of them is to make a reference to "the three thousand mile border without a soldier or a cannon." The second is that terrible bore of all proportions of our "boundless natural resources." And the third—rapidly becoming the worst (Mr. Massey, our minister at Washington, is becoming a daily offender)—is that persistent protestation about our "loyalty to the Empire and the Throne."

Why on earth should it be necessary to keep eternally protesting about our loyalty? Englishmen don't do it. They sensibly regard their loyalty as something to be taken for granted, as it should be taken for granted. But let a Canadian get on his feet, whether he be an alderman or a prime minister, and immediately begins to protest that he isn't a Guy Fawkes.

The practice has got to be an infernal nuisance. It's about as appropriate as if men were constantly getting up to protest the virtue of their wives.—Ottawa Journal.

## Here and There

Platinum produced in Canada in 1926 totalled \$251 fine ounces, or an increase of 1,000 over the year before, according to the Dominion Bureau of Statistics.

Dr. H. M. Terry, Chairman of the National Research Council, announces a discovery of "great scientific importance" in rust prevention, emanating from the Dominion Rust Laboratory. A more definite announcement is due shortly.

Canadian tobacco has been awarded a silver medal for "dramatic excellence" at the International Tobacco Exhibition held at Olympia, London, England, according to word received by the Department of Agriculture.

Fifteen Austrian families are about to take up land in the Okanagan Valley, near Kelowna, being the first group to take up land in British Columbia under the Canada Colonization Association, a subsidiary of the Canadian Pacific Colonization Department.

Canada leads all nations in increased trade since 1913 according to statistics compiled by the National Foreign Trade Council of New York. Canada's increase was 85 per cent, Australia coming next with 48 per cent and the United States third with 31 per cent.

The Provincial Game Commissioner of Alberta announces bounties to be paid on wolves killed: \$20 for the pelts of female timber wolves, \$10 for that of males, and \$2 for adult and pup prairie wolves taken before September 1st and July 1st, respectively.

Another collection of native Canadian animals has gone forward across the waters through the Canadian Pacific Express Company. It included two bear cubs, two porcupines, two cottontails, prairie dogs and marmosets, two great blue herons and a collection of Canada geese, destined for the zoo at Fredericton, New Brunswick.

One feature of the celebration of the 60th anniversary of Confederation at Vancouver, July 14, will be the official opening of the 1,100-foot new Canadian Pacific Railway pier "B-C" on the latter date. It is the second largest pier on the American continent and is said to be the only pier in the world built in such deep water.

## Here and There

It is estimated that 23,500,000 acres will be sown to crops this year. In the West, an increase of 2,500,000 acres over 1926.

Canadians hold the record for eating eggs. The average Canadian last year consumed 337—a record according to Dr. J. H. Girdale, Deputy Minister of Agriculture.

Tobacco-growing is flourishing in Western Ontario, and this year the acreage will likely run to 45,000 or double that devoted to the production of this plant in 1925. The crop last year was valued at \$5,000,000.

One of the most powerful radio stations in Canada will be erected at Red Deer, Alberta, in the near future. Stations will be operated in Calgary and Edmonton by remote control to the main station.

New Zealand will be officially represented at the World's Poultry Congress at Ottawa, July 27 to August 1. R. W. Hawke, one of the Island Dominion's best known poultry breeders, will represent that country.

Besides the game fish hatchery which will be established by the Dominion Government in the Waterton Lakes district in Southern Alberta, a commercial fish hatchery will be established in the north. The latter will also handle certain species of game fish suitable to lake waters.

The Canadian Pacific steamship passenger traffic through the port of Saint John during the winter season of 1926-7 was over 40 per cent greater than that of the previous season, and it is expected that the summer traffic through the St. Lawrence port will show a still greater increase.

The last addition to the chain of Canadian Pacific hotels is the "Hotel Saskatchewan," located at Regina, opening on May 24. It is one of the finest of the chain of a character in keeping with the importance of the capital city of the Province which furnishes 50 per cent of the Dominion's wheat output. The hotel is 12 stories, containing 216 bedrooms with bath, and many beautiful public rooms, and administrative offices.

The Canadian Pacific Railway Company reports from Winnipeg the marketing of grain at the present rate of 180,000 bushels daily as compared with 123,276 for the corresponding season of last year. Manitoba's 180,000 compares with Saskatchewan's 532,000 and Alberta's 368,327. Loadings are also above last year's record with 220 cars daily.

The greater portion of the bells forming the carillon to be installed in the Victory Tower at Ottawa, were shipped from England on May 7 by the Canadian Pacific steamship "Balfour." The carillon, consisting of 53 bells, is regarded as the finest of the world, and have been cast in the famous bell foundry at Graydon. The bells are a portion of a national memorial to thousands of Canadians who laid down their lives in the Great War.

The Province of New Brunswick is rising in importance as a farming province. The report on the fur farms of Canada just issued by the Dominion Bureau of Statistics shows New Brunswick at the head of all the provinces in the matter of the yearly gain in the number of fur farms. These increased by exactly 100 in the year ending March, 1926, nearly doubling the number of the year before and standing in the latter year at 205. Prince Edward Island still leads the Dominion in the number of furms, having 270 out of a Dominion total of 2,223, the latter figure comparing with 2,120 the year before. The provinces rank as follows: Prince Edward Island, 270; Ontario, 495; Quebec, 456; New Brunswick, 205; Nova Scotia, 192; Alberta and British Columbia, each 120; Manitoba, 53; Saskatchewan, 42, and the Yukon Territories, 20.

Alf (as Pussyfoot lecturer) departs: "E's a queer card, Bill! Do you think 'e's all there?"

Bill: "Well, if what's not there is like what is there, it's just as well 'e's not all there!"

Traffic Cop: "What's your name?"

Truck Driver: "It's on the side of me wagon."

Cop (trying to read name): "It's obliterated."

Driver: "Yer a liar, it's O'Brien."

Local Curate: "Let me hear how far you can count, Freddie."

Freddie (whose father plays cards): "One, two, three, four, five, six, seven, eight, nine, ten, Jack, queen, king."

Honest Passenger on a car at 5:17 p.m.: "Has anyone dropped a roll of bills with a rubber band around them?"

Chorus: "Yes, I have."

H.P.: "Well, here's the rubber band."

"Betty," said the office manager to the new stenographer, "I don't wanna be harsh. Not a bit. Really, I don't."

"Well, let's have the news," said the damed, nonchalantly. "What's gone wrong now?"

"Oh! I just wanna ask you not to write your young man during business hours. Letters are apt to get mixed. Reilly & O'Neill report we have sent 'em a shipment of love and kisses instead of the axle grease they ordered."

Dealing Direct  
A farmer rushed to the undertaker one night with the command to be ready for a call on short notice, that his wife was very ill.

"But you don't want me, you want a doctor," the undertaker counselled.

"I want nothing of the kind," replied the farmer. "After what I've read in the papers, I'm going to cut out all these middlemen."

## Gay Festival At Banff For Scots

Scots folk in Canada and the United States can well look forward with keen interest to resuming acquaintance with many of the delights of Scotland a hundred years ago were a Highland gathering and Festival of Scottish music to be held at Banff September 3 to 5 to which the Prince of Wales has given his patronage.

What more magnificent setting for a Highland gathering could be chosen than Banff with that vast amphitheatre of Rocky Mountains encircling the headlong waters of the Bow and Spay Rivers. Scottish fur traders who first penetrated these mountains a hundred years ago were awed by the ruggedness of the scene and impressed by its similarity to their own rugged highlands. The force of circumstance and the love of adventure have brought many Scots to this Western world and it is only natural that they should wish to take part again in the old sports and traditional tests of many prowess which will be a feature of the gathering in addition to a wealth of Scottish music. The recorded history of this music goes back to the days of Columbia whose mission, established in the sixteenth century at Inna, spread its influence all over the south and west of Scotland.

Many of the finest exponents of Highland dancing in Western Canada have intimated their intention to take part in the gathering, and Banff, Scottish singers have been engaged including J. Campbell McInnes noted for the rendering of Border and Highland ballads; Madame Jeanne Dussault, who under her maiden name of Ruth Thom attracted the attention of Mary Garden, the well-known prima donna, by her beautiful interpretation of old Scottish songs; Davidson Thompson, the Winnipeg baritone, who sang with the Minneapolis Symphony; and Ruth Macdonald, Winnipeg's fine contralto.

Gaelic singers will be represented by Norman Cameron, a tenor, and by a group of folk-song vocalists from the Hebrides, who recently came to make their home in Canada.

The programme of Scottish music has been drawn up in historical sequence commencing with old ballads of the fourteenth and fifteenth centuries, followed by groups of the period of Mary Queen of Scots, Stuarts, and Jacobites. In turn there will be songs by Burns, Sir Walter Scott, Lady Nairne, and Christopher North.

Hebridean music, recently made popular by Mrs. Kennedy Fraser, will also be featured, and place will be found, too, for the folk-songs and dances of Highland tribes of Indian whose hunting grounds were from time immemorial in the Negashir Rockies. These Indians will be gathered in a picturesque encampment and with their kippers and variegated costumes they will add another note of colour to the gathering.

By the courtesy of the Canadian minister of Militia each of the seventeen Highland Regiments in Canada will be represented by its best regimental piper in an endeavor to secure a beautiful trophy offered by E. W. Beatty, chairman and President of the Canadian Pacific Railway Company through whose interest and generosity the organization of this unique Highland gathering at Banff has been made possible.

**BLAIRMORE UNITED CHURCH**  
Rev. J. W. Smith, Pastor

Serve the Church that the Church may serve you.

Servings Sunday, August 28, 1927.

**MORNING SCHOOL** at 11 o'clock. Subject for the Young People's class: "Education and Modern Missions."

**AFTERNOON SCHOOL** at 2 o'clock. All boys and girls under 12 years of age. Come to this school.

**EVENING WORSHIP** at 7.30. This service will be conducted by Mr. Mun-

caster. This service marks the close of the work of the Junior Choir in the evening worship.

The Senior Choir have enjoyed a holiday for the last seven weeks, made possible by the loyal and splendid work done by this Junior Choir.

The whole congregation have been delighted with their sweet singing, and they will be pleased to know that plans are being made to keep them together as a junior chorus.

**ANNOUNCEMENTS**

For Sunday, September 4th, we are arranging a special Musical-Flower Service.

Mr. Smith will be in charge. The service will be the beginning of the fall work and it is hoped that as many as possible will be present.

Will you bring your gifts of flowers to the church on Saturday afternoon.

Mrs. Harmer's Sunday school class held an enjoyable picnic at the home of their teacher on Monday last.

The Busy Bees, accompanied by their leaders, Mrs. Warner and Mrs. Womersley, spent Wednesday at Crows' Nest Lake.

They journeyed to the lake in the Big Bus and a most enjoyable time was spent throughout the day.

The girls had the time of their lives, when at dinner they roasted potatoes, weiners and such like and in the afternoon went swimming and held races, the winners being as follows: 8 years, 1st, Jean McDonald, 2nd Libby Erwin, 3rd Shirley Bannan; 9 years, 1st Eva Erickson, 2nd Tina McVey, 3rd Gertrude Scott; 10 years, 1st June Smith; 2nd Caroline Moore, 3rd Kathleen McDonald;

11 years, 1st Marion McDonald, 2nd Flora McKinnon, 3rd Doris Craig and Lennie Erickson; 12 years, 1st Isabelle McDonald, 2nd Laura Link, 3rd Hazel Haywood; sack race, over 10, 1st Isabelle McDonald, 2nd Laura Link, 3rd Lennie Erickson; sack race, under 10, 1st Tina McVey, 2nd Kathleen McDonald, 3rd Eva Erickson; potato race, over 10, 1st Isabelle McDonald, 2nd Marion McDonald, 3rd Lennie Erickson; potato race, under 10, 1st June Smith, 2nd Caroline Moore, 3rd Kathleen McDonald; consolation race, 1st Kathleen Scott, 2nd Lucy Harmer, 3rd Jean Gray; three-legged race, 1st Kathleen Scott and Doris Craig, 2nd Caroline Moore and Kathleen McDonald. Mrs. Warner and Mrs. Womersley and the girls wish to thank Mrs. Craig, who took some of the girls to the lake in her car.

The members of the senior choir will entertain the junior choir at a social evening in the church tonight, Thursday.

The weekly talks being given by Rev. Mr. Smith on the history of some of the old hymns, are very interesting indeed. Most of us, who have been singing these hymns for years past, have little realized the history that has laid behind the writing of them and this, with the true meaning of the words attached to them, has been brought out by Mr. Smith, which makes the singing of them more interesting than in the past.

Some of these old hymns make a whole sermon in themselves and is well worth attending on Sunday evenings.

A big treat is in store for those who attend the evening service on Sunday night, September 4th, when a special musical-flower service will be held.

The senior choir will be in their places and special soloists will take part. Further announcements will be given in this column next week.

Rev. J. W. Smith is spending a couple of weeks in Calgary and is attending the summer school sessions there. He will return at the end of next week. Mr. Eric Muncester will

conduct the evening services on Sunday next.

Remember the tea and sale of work to be held in the Elks' Hall on Saturday, September 3rd, from 3 to 5 p.m., under the auspices of the United church choir. Proceeds to help wipe off the debt on the organ. Plan to be there and have tea, and besides purchase some of the home cooking and other goods you may need.

Thinks this over:

**THE TWO PRAYERS**

Last night my little boy confessed to me

Some childish wrong, and, kneeling at my knee,

He prayed, with tears, "Dear God, make me a man

Like Daddy, wise and strong; I'm sure you can."

Then, while he slept, I knelt beside his bed,

Confessed my sins, and prayed with low bowed head:

"O God, make me a child, like my child here—

Pure, guileless, trusting Thee with faith sincere."

—ANDREW GILLIES.

**WOW!**

One little flapper,

Looking very cute;

Bobbed hair and lipstick—

My, but she's a beauty.

One little tea hound,

Bell-bottomed pants;

Wrist watch and cigarette—

Oh, how he can dance!

Now they are married—

Living in a flat;

Going to be some trouble,

You can bet your hat.

One little divorce court—

Both standing pat;

Home again to papa

And

That's

—Collier C. Kirby.

The Royal train is due to pass through Blaimore at 6 p.m. today.

**THE PASS FIFTEEN YEARS AGO**

(The Blaimore Enterprise, 1912)

July 4.—J. Badot and Ling Dong were fined one dollar and costs each for having supplied young boys with tobacco and cigarettes.

Twenty-six persons were killed by a terrific cyclone which hit Regina on Sunday afternoon.

Jack Johnson defeated Jim Flynn in the ninth round of a heavyweight championship bout for the world's title at New Mexico today.

Woodrow Wilson, governor of New Jersey, secured the Democratic nomination for president of the United States.

James Sloan has arrived in town from Scotland on a visit to his sisters, Mrs. Pinkey and Mrs. Thompson.

Mrs. Sloan is a French polisher of great ability and is prepared to accept orders for such work.

Albert Mutz is dismantling the Imperial hotel at Frank and will re-erect same at Vulcan.

The marriage of Emil Dypolt, of Frank, to Miss Anna Pras, of Chicago, was solemnized by Rev. W. T. Young on Saturday evening.

Walter Scott, accompanied by his bride, returned to Bellevue from Winnipeg on Monday. They are occupying the Raynor house.

July 11.—On Sunday last, Wellington Lodge No. 2224, L.O.L., held their annual church parade to Central Baptist church, where they were addressed by Rev. J. F. Hunter, B.D.

At Monday night's meeting of the council, the West Canadian Collieries asked to have the water service extended to West Blaimore and to their mine.

As a result of the firehall site controversy, Councillor J. G. Smith resigned. Secretary Shera was appointed returning officer and instructed to proceed at once to fill the vacancy by a bye-election.

The marriage of Rev. A. S. Tcd, B.D., to Miss M. R. O'Brien took place at Nelson on Wednesday.

July 18.—Mr. Fleutot, ex-managing director of the West Canadian Collieries, Limited, arrived here on Sunday from France.

In the local court on Monday, before Justice Gresham, A. Poggiali was fined \$100 and costs for having in his possession wine that registered considerably over proof.

The remains of 350 Toronto Chinese are being dug up—to be transported in China.

Rev. and Mrs. D. K. Allan, who had been spending a few days with friends in Coleman, returned homeward this morning.

Mr. K. P. Stewart, principal of Barons public school, was a visitor to Fincher Creek and Blaimore last week end.

J. B. Wilson, manager of the local branch of the Royal Bank of Canada, returned Monday from a holiday trip to the coast.

Rev. Mr. Currie has been relieving the Rev. J. S. Orton at the Anglican church at Innisfail, while Mr. Orton is holidaying at Banff.

"Why do you wear rubber gloves when cutting hair?" asked the customer.

"For the purpose," replied Hartley, "of keeping our celebrated hair restorer from causing hair to grow on my hands."

He sold a bottle.

**DEMPSEY-SHARKEY**

**FIGHT PICTURES**

Your only chance to see the official film pictures of the Dempsey-Sharkey fight will be afforded on Monday and Tuesday next at the Orpheum Theatre, Blaimore, and the Grand Theatre, Coleman. Crowded houses are assured, as great interest has been manifested locally in this greatest of all championship pugilistic battles.

## Not merely How much you pay but How Much You Get

**WITH New Lower Prices** is now combined the most Amazing Quality in all Chevrolet history.

Chevrolet has widened the circle of automobile ownership . . . provided economical transportation to untold thousands . . . placed within reach of the average motor-car buyer a **QUALITY** and a **LUXURY** beyond all expectations.

In judging Chevrolet look not merely at what you pay, but also at what you get. Consider the smooth, fleet performance, the grace and beauty of the Fisher bodies, the ease of starting, driving and stopping, the refined yet rugged quality evident throughout Chevrolet construction.

Weigh Chevrolet quality with Chevrolet price and know why Chevrolet has achieved the most spectacular popularity of any car in the world.

**"BEAU GESTE"**

A Mystery Story of the French Foreign Legion in the deserts of Africa that tightens your skin with excitement. It tells of three handsome young Englishmen who disappear from home after a famous sapphire known as the "Blue Water," and belonging to their aunt, has been stolen. All this leads to a remote fort in the Sahara and the ever-feared attack of an Arab host. In the morning the fort re-

mains uncaptured, every man at his post—dead, the commanding officer with a French bayonet through his heart, and an amazing confession concerning the "Blue Water" clutched in the hand of a dead soldier. A thrilling mystery story. A wild adventure story. A delightful romance. Never before have you encountered more intense action. Such a story promises great things. Such a cast guarantees them.

WORLD HAPPENINGS  
BRIEFLY TOLD

London now has a telephone connection with Stockholm, Sweden.

J. Ogden Armour, head of the great packing industry, having the name died in London, aged 84, of a weak illness with typhoid fever. He would have been 64 years old in November.

Great Britain and Yugoslavia have signed a debt-funding agreement whereby the Yugoslavia war debt of \$127,500,000 will be paid in 65 annuities beginning this year.

The eighteenth birthday of President Hindenburg is to be commemorated by the issue of stamps sold at slightly higher rates than the face value, and the profits to be devoted to charities.

Only about 8,000 people are participating in the race to the new diamond field at Wolvordland, Transvaal, compared with 25,000 in the recent rush to Graafwater, according to the Daily Mail's Johannesburg correspondent.

A remarkable yield in fall wheat is reported from Marlborough Township, Ontario, on the farm of Deputy Reeve R. L. St. Iver, who has recently finished threshing 600 bushels of wheat of the Dawson Golden Chaff variety, from less than 13 acres of land.

Sixteen deaths from pneumonia are reported to have occurred during an epidemic on the British steamer Sutil, carrying 800 immigrants from Trinidad to Calcutta, an Exchange Telegraph dispatch from Capetown says.

The name Lemieux has been approved for a chain of islands at the entrance to Cumberland Sound, Baffin Island, Franklin district, Northwest Territories. The islands have been named after the Hon. Rodolphe Lemieux, the Speaker of the House of Commons, Canada.

Sachs (Peggy) Hall, Santa Anita aviatrix, has confirmed reports that she was negotiating with F. F. Shay, of New York, said to represent a New York newspaper, for financial backing for a transatlantic flight in which she would be the first woman to pilot a plane in the ocean loop.

Surveys of a road route between Prince George and the boundary of Alberta, have been ordered by the public works department in the belief that this highway, as well as a road up the North Thompson river, will be needed at some time to accommodate growing travel.

## How Icebergs Are Destroyed

Method Of Using Thermite Is Found Highly Successful

An iceberg of almost indescribable beauty, 500 feet long, with a hollow in the centre 90 feet in depth, having sides of porcelain white and containing an emerald-green lake 4 feet deep, was encountered by a recent iceberg demolishing party.

Armed with ropes, ice picks, axes, drills, and canisters containing thermite, they were trying a highly successful method of destroying icebergs that endanger the trade routes of the North Atlantic.

On landing, the party drill holes into the ice and insert the chemical charge, which is fired by fuse. Thermite develops tremendous heat at a great rate, reaching as high as 5,000 degrees Fahrenheit. In a few hours the largest iceberg cracks and disintegrates with a noise resembling an earthquake.

## Storms Make Atlantic Passage Formidable

Competent Ocean Weather Bureau and Suitable Plans Will Overcome Trouble

It is not distance but storms that make the Atlantic passage formidable. It will cease to be so when ships, heavier or lighter than air, are built specially for such service, and a competent ocean weather bureau is established. Navigating skill in the air will consist largely in avoiding storms. Great Britain is completing a dirigible that will be used for voyages between England and Canada in 1928. A sister ship is to furnish a service to India and Australia. The presumption is that the sea will be crossed in a comparatively few years by multi-motored airplanes carrying express matter and passengers.

Old-age Pension Scheme  
An old-age pension scheme which shortly be put into effect in British Columbia and the Yukon, the necessary provincial legislation having been passed, it is stated by Hon. Peter Hoeman, minister of labor.

Many a shrewd man has purchased a gold brick in the form of experience.

W. N. U. 1625

## Tribute To Mr. Baldwin

Is A Patriot In The Best Sense Of The Word

A very prominent man, not of Mr. Baldwin's political faith, remarked last year that the Prime Minister of Great Britain never stood out—no great a figure as in the closing days of the General Strike, and that his greatness of character notably revealed itself by his magnanimous appeal when the fight was won. His words regarding the working men of his country in his recent address to the Ottawa Canadian Club again disclosed the big-hearted, sane, and generous man, patriot in the best sense of that hard-worked word.

A shrewd and successful man of business, nobody knows better than Mr. Baldwin the fallacies lying behind the doctrines preached by the militant minority of the Labor party. He has on a practical occasion pointed out the uneconomic character of the practice of restricting output and placing the unskilled and easy-going workman on a parity with the skilled and active. The deserved and high tribute he paid to British workmen as a whole, his appreciation of their difficulties, and his faith in their integrity of purpose make his understanding once more how, in the perplexities and bitter strife which accompany profoundly changed conditions in the industrial life of England, almost alone amongst European nations, has not trodden, and is unlikely to tread, the bloody road of revolution.—Ottawa Journal.

## Canadian Teachers' Federation

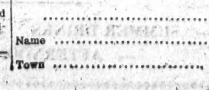

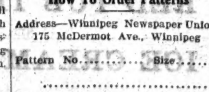

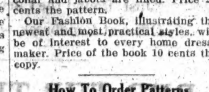

Dr. Hardy, Of Toronto, Is Elected President At Annual Meeting

Dr. E. A. Hardy, Toronto, was unanimously elected president of the Canadian Teachers' Federation for the year 1927-28 at the closing session of the eighth annual meeting of the federation held in Toronto.

Other officers elected were: Vice-president, C. W. Laidlaw, Winnipeg; Secretary-Treasurer, M. J. Caldwell, Regina.

Two recommendations which may have considerable effect on Canadian school problems in the near future were strongly approved at the annual meetings.

It was suggested that the standards of entrance to normal schools throughout the Dominion be raised and the period of training lengthened before a certificate is granted qualifying the pupil to teach.

## Enforce Food and Drug Act

Canadian Health Officers Keep Strict Check On Quality Of Supplies

"All matters pertaining to Canada's food supply are of such vital importance that Parliament has enacted legislation to prevent misrepresentation of foods as well as fraudulent or dangerous adulteration. The legislation is centred in the Food and Drug Act which is administered by the Department of Health as one of its many functions in the public service," writes H. M. Lancaster, chief Dominion analyst, in an article prepared under the direction of R. J. A. Anquet, deputy minister, federal health department.

A resume of one year's activities gives a glimpse of what is being done to prevent undesirable complications and to maintain quality and honest marketing of our food supplies, apart from agricultural inspection at production centres. Twenty-six inspectors of food and drugs, were on duty throughout Canada and laboratories were opened at Ottawa, Halifax, Montreal, Winnipeg and Vancouver. In all over 10,000 samples of foods and drugs were examined. Many of these were from import shipments, others were purchased in retail stores, and still others taken direct from factories.

A wide range of foods is covered by these investigations and a close watch is kept on the various brands marketed. Special attention was paid to inspection of import shipments at ports of entry. The Canadian market, which must never become a dumping ground for the refuse of other countries, was protected from inferior consignments of the most varied nature, including food dyes, package spices, tomato and moly mungins, nut, tomato paste, beans, and frosted oranges.

Food is not destroyed unless satisfactory utilization is impossible. Destruction was found necessary for the disposal of certain seizures of deteriorated baking powder (17 years old); nuts (moldy and wormy); oranges (frozen and spoiled); dried apples (moldy and wormy).

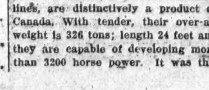

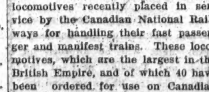

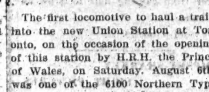

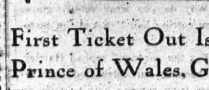

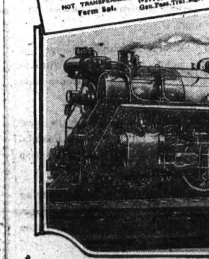

Thirty-nine prosecutions arising from adulteration of meats (including Hamburg steak and sausages), maple syrup, maple butter, molasses, candy and jams, were instituted only after the objectionable practices were found to be wilful and persistent. In many cases breaches of the law are committed through lack of knowledge, but the damage done is not extensive although it can be easily seen that matters would ultimately assume a serious aspect if it were not for the preventive action of this service.

The first successful aeroplane flight was made at Kitty Hawk, N.C. December 17, 1903. Wilbur and Orville Wright made four flights that day, the longest lasting 59 seconds.

William: "I hear that you killed ten boys at the party last night."

Clady: "Yes, ten—all dead."

## The Line To Fort Churchill

No Engineering Difficulties Will Be Encountered In Laying Out New Road Bed

It is expected that the railway to Fort Churchill will be completed towards the close of 1929, and C. S. Gowsk, chief engineer of the construction department of the Canadian National Railways, who has been charged by the Dominion Government with the rehabilitation and further extension of the Hudson Bay railway.

Mr. Gowsk said: "At Churchill there will be no difficulty in establishing railroad terminals for any reasonable capacity required at a relatively small cost, the land being generally flat for a considerable width, giving a wide choice of location. The 150 miles of railroad construction to complete the line is generally very similar to the present H. B. railway. Soundings indicate that muskeg depth and conditions of frost are the same as previously experienced."

The summer of 1928 will be employed clearing and grading the route ready for track laying, bridging and ballasting in 1929. No bridges of consequence will be encountered. The proximity to various streams and rivers assures proper drainage to the seaboard."

A Lucky Fisherman  
A lump of ambergris worth \$12,000 has been found 15 miles off shore by a fisherman of Gloucester, Mass., who was attracted to the spot by observing a flock of seagulls hovering over the water. Ambergris, a substance of the consistency of wax, is sometimes found floating in the ocean. It originates as a morbid secretion in the body of the sperm whale. It is highly valued in perfumery.

Red tape, an expression signifying official formality and delay, owes its origin to the red tape usually employed in tying up public documents.

Not the only euro yaw to keep a secret is not to have a secret.

Will Supply Canadian Bacon  
Cable advices from London quote Sir Laming Worthington-Evans, Secretary of State for War, as stating in the House of Commons that Canadian bacon is now being supplied to the troops in Great Britain, and would also be used at various overseas stations.

The reason why a chicken crosses the street has been discovered. It is the same reason as that which makes a driver try to beat the train to the crossing.

Of the 61 Northern Type locomotives, each used in haul the Royal train, for this occasion, twenty are being built at Kingston and a like number at Montreal. These are distinctly the last word in locomotive construction in the British Empire.

"They are to be used on the Canadian National System, immediately after delivery of the new station open, the Prince of Wales proceeded to the Canadian National Railways terminal at St. John's."

"Ticket No. 1" of the new station. Tickets numbers two, three and four, were issued to Prince George, Premier Baldwin and Mrs. Baldwin, respectively.

## SUNDAY SCHOOL LESSON

AUGUST 25

NATHAN LEADS DAVID TO REPENTANCE

Golden Text: "A broken and a contrite heart, O God, Thou wilt not despise." Psalm 51:17.  
Lesson: 2 Samuel 11:1 to 12:25.  
Devotional Reading: Psalm 103:1-4.

## Explanations and Comments

I. Nathan's Parable, verses 1-14. Several months have passed since David ordered the murder of Uriah and took to himself the latter's wife; Now the prophet Nathan has come, and in a graphic way, by means of a parable, he brings home to David the enormity of his sin.

There were two men in one city; one of them was rich, having exceedingly many flocks and herds; the other little ewe lamb, Nathan adds one detail after another about that lamb so as to arouse the listener's sympathy for the poor man and abhorrence of the rich man's deed. He has bought and nourished it; it grew up together with him and with his children; it sat out of his own morsel, and drank of his own cup, and lay in his bosom, and was unto him as a daughter.

The rich man represented David, David's Parable explains it from the Jewish writings, the evil imagination, disposition, or desire, which came into David's heart. For this wayfaring man's food the rich man served the poor man's lamb, sparing his own flock and herd.—Matthew King.

As the Philadelphian Record observes, if people who are blind to their own faults only realized it, what a business the oculists would do.

II. David Pineses Judgment On the Deed, verses 5, 6.—David's supposed Nathan has brought a case to him for judgment. His anger is greatly kindled against the rich man, and in this his decision in the matter; the rich man deserves death; he who had no pity and did so foul a deed shall restore four lambs for the one she (2 Samuel 12:1).

"The first thing that strikes is the blindness and infatuation of the man to have misused the application of the parable. It seems an almost impossible state of self-deception which could yet never be an indignant virtue against the supposed culprit, and never once drawn that the case could apply to him; used in it is not such an impossible thing as it looks; nay, it is even one of the commonest faults of morals, and one which we can easily illustrate any day among ourselves. We not assent to a general statement of right and wrong, even give an unbiased judgment on concrete cases that are mentioned; and yet never make the personal application."—Hugh Black.

Will Supply Canadian Bacon

Friendship  
Will Endure

Britain and U.S. May Disagree On Some Questions But Will Never Quarrel

If any person has been nursing a fear, following the collapse of the Anglo-American alliance, that the relations between Britain and the United States would not continue friendly, he had a reassuring answer in that great international gathering at the dedication on Sunday of the new peace bridge between Buffalo and Fort Erie, Ont. That bridge, the thousands of people from the two nations gathered to witness the ceremonies and the distinguished men who spoke proclaimed to the world that the peace bonds between the two great Anglo-Saxon nations had not been shattered, nor even strained, by the failure of the naval conference to reach an agreement.

The speeches of the Prince of Wales, the Prime Minister of Great Britain, the President of the United States, all breathed forth Anglo-American friendship. Vice-President Dawes, after dealing with the Geneva issue, made this emphatic statement: "Peace between the English-speaking peoples is founded as firmly as the bedrock which supports the new peace bridge, adding that it was based 'on common faiths and ideals.' Continuing, he said: 'The instinct of self-preservation—the most deep-seated of mankind—binds us together, and in that unbroken tie is the ultimate guarantee of safety and progress of western civilization. That bond will never break.'"

"We think that Mr. Dawes hit the nail on the head when he said that peace between the English-speaking peoples was based on common instincts and ideals, and that the instinct of self-preservation bound the two peoples together in a bond that will never break."

The speaker then declared that peace between the English-speaking peoples was based on common instincts and ideals, and that the instinct of self-preservation bound the two peoples together in a bond that will never break."

The speaker then declared that peace between the English-speaking peoples was based on common instincts and ideals, and that the instinct of self-preservation bound the two peoples together in a bond that will never break."

## CUTICURA

Helps Business Girls to Look Their Best

The regular use of Cuticura Soap, assisted by touches of Cuticura Ointment, is required, keeps the complexion fresh and free from blemishes, the hair lustrous and glossy, and the hands soft and smooth. Cuticura Talcum is fragrant and refreshing, an ideal toilet powder.

Sample Soap Free by Mail. Address: Cuticura, Dept. 1, P.O. Box 100, Montreal, P.Q. 100. Cuticura Soap, 25c. Cuticura Ointment, 10c. Cuticura Talcum, 25c.

## PAINTED FIRES

BY NELLIE L. McCLUNG

COPYRIGHT, CANADA, 1925

## CHAPTER VI.—Continued

"No, no, dear Mrs. St. John, I never tell. See, I say my words." She held up her hand solemnly. "Cherish health; seek truth; know God; enjoy others." Now, you see, I swear!"

Greatly wondering and distressed, Helmi went swiftly on her way. The address led her to the north end of the city, where, leaving the car line, she went down a narrow old street where "second-hand" stores dotted their ruined walls all over the street. Dirt and dust, wounds and scratches were so thick on everything. Helmi shuddered with the thought that all the owners were dead and didn't care. Would her dear lovely lady's beautiful chairs and window hangings ever come to this?

The number Helmi sought was on a building that had been painted recently. The name was on the door in gold and red—foreign looking letters, with many sharp points.

Inside people were eating at narrow tables covered with white oil-cloth, and all the waiters were Chinese. To one of them she went and asked for Sam. She was too distressed to be frightened.

"Upstairs," he said, "outside."

An outside door opened on a flight of dull gray, grubby stairs, which creaked and groaned as Helmi swiftly ascended them. She found herself in a dark passage as the top of the stairs, where dismal curtains of dingy brown obscured the rooms beyond. Fear held her then, and for a moment she stood irresolute.

"Sam," she called, "Oh, Sam!"

A face like a yellow pumpkin peered through the curtain at her. "Whatchawant?" it breathed.

Helmi held out the five-dollar bill. "For a lady," she said, "who is very sick."

Sam nodded. He pulled a curtain back, with a rattling of rings, and said, "Wait here."

Helmi entered a room where air stinked here. It was so strangely cold and dead, a sort of embalmed air which would never yield to sunshine. And although it was a very still room, everything she looked at seemed to writhe with a secret motion. A huge black glittering jar stood on the table in front of her, and coated around it was a red snake with its head lifted ready to strike. It would have sprung back but it held her with its eagle shining eyes, and although she knew its tongue would dart out like a red hot needle she could neither move nor scream! At this she saw it was not a real snake at all.

## SICK ABED EIGHT MONTHS

After Taking Lydia E. Pinkham's Vegetable Compound Could Do All Her Work and Gained in Weight

Melfort, Saskatchewan.—"I had inward troubles, headaches and severe constipation. New I weigh twice as much. If I get out of sorts or weary and can't sleep I always take another bottle of the Vegetable Compound. I find it wonderfully good for female troubles, and have recommended it to my friends. I will be only too glad to answer any letters I receive asking about it." Mrs. WILLIAM HITCHCOCK, Box 586, Melfort, Saskatchewan.

"What do you think?" he asked her. "She helped me every day, and sang Pina Poina, and was so happy. I could feel a bad girl, but she was a relationship between happiness and goodness. Here again was evidence of Helmi's love of work."

Tell Mrs. St. John I called. He gave her his neatly engraved card. Reverend Edward Terry, Young Methodist Church.

"I hope you can get her off. Sir, she's only seventeen," said the maid anxiously. "Those are, too. I believe she is an innocent girl."

Mr. Terry sought the Police Court, but found that he could not see the prisoner, nor one could see her until after the case was heard. From the mafra he found out that Helmi was the only person arrested in the raid, and the most serious aspect of the case now was that he had resisted arrest and knocked Inspector Watt down the stairs.

The minister went to the magistrate's office to see if he could not get a preliminary permission to see Helmi. After all, he was her minister.

Magistrate Windsor, a gray-haired, florid-faced old man, sat behind a oak desk and glared at his visitor from under bushy eyebrows. The minister had sent in his card.

"Well, Sir," said His Worship, testily. "What can I do for you? Sit down while you wait."

Mr. Terry took the round-backed, well-worn chair, vaguely conscious of the many anxious spectators who had interviewed this fiery looking old official. "I am interested in the case of this young Finnish girl who is here under arrest," he said; "she attended my church."

The magistrate's face grew redder; his eyebrows bristled. "She's a young wildcat, that girl," he said. "One of our inspectors is laid up with a broken arm. I am afraid your ministerial efforts were not very successful in her case, Parson."

(To Be Continued.)

## Most Powerful Projectile

Radium Gives Off Millions Of Rays a Second At Incredible Speed

How the discovery of radium and other similar elements that spontaneously radiate rays and particles of matter, has placed in the hands of physicians a powerful weapon by which the true structure of the human body has been discovered. The subject of a lecture by Sir Ernest Rutherford, given at the Royal Institution in London.

This weapon is what has been named the alpha particle, which radiates out millions of times every second at a speed of 10,000 miles a second. Such tremendous velocity makes the alpha particle the most powerful projectile known to science, compared with it the softest rifle bullet is the veriest sluggard.

Stop the Cough.—Coughing is caused by irritation in the respiratory passages and is the effort to dislodge obstructions that come from inflammation of the mucous membrane. Treatment with Dr. Thomas' Electric Oil will allay the inflammation and in consequence the cough will usually stop. Try it and you will be satisfied.

## New Postage Stamp Issue

Further Denominations Of Canadian Historical Stamps Now Available

Three further denominations of Canadian historical postage stamps have been issued. On the new five-cent stamp appears the head of D'Arcy McGee. It is colored purple. The twelve-cent stamp, colored light green, bears the heads of Sir John Macdonald and Sir Wilfrid Laurier. The new twenty-cent stamp which is carnation in color, has the heads of Baldwin and Lafontaine.

All mothers can put away anxiety regarding their suffering children when they are sure Mother Graves' Worm Expeller is the remedy to give relief. Its effects are sure and lasting.

Collecting New Stamps Visitors to Canada from the United States are said to be patronizing the postoffices to obtain as souvenirs the new stamps printed in commemoration of the Diamond Jubilee of the Confederation of Canada. The set of six ranges in value from 1 to 25 cents, the latter being a special delivery stamp depicting five stages of mail transportation.

Pleanty Of Cars San Francisco's western population could go riding at once if an average of a little less than six persons were carried in each of the city's registered motor vehicles. San Francisco has a motor vehicle registration of one car to every 5.7 persons.

Passenger liners leaving Montreal for Liverpool are out of sight of land but four days.

WHEN USING WILSON'S FLY PADS READ DIRECTIONS CAREFULLY AND FOLLOW THEM EXACTLY

Best of all Fly Killers—10c and 25c per packet at all Drugists, Grocers, and General Stores.

## International Road Maps

Map Made For The Benefit Of Auto Tourists Will Prove Valuable

In plans an automobile tour it is advisable to first of all consult a map that is sufficiently comprehensive as to take in the entire territory within reasonable touring distance of the starting point and also one that shows the principal automobile highways, so that in a general way a route may be selected and an itinerary planned.

The international highway maps published by the Natural Resources Intelligence Service of the Department of the Interior at Ottawa, in this need particularly and in a very practical fashion. The trunk highways of the northern States and of Canada and their connecting points are clearly shown. This is probably the only map that so clearly shows the relationship between the highway systems of the two countries and with such an absence of unessential detail. Its usefulness to those who are planning a vacation or business tour in either or both countries will at once be apparent.

Four sheets in all are available as follows:—Atlantic Sheet; Great Lakes Sheet; Middle West Sheet; Pacific Sheet.

A general map of the whole international border is also published. These sheets are supplied to any part of the United States or Canada without charge upon application.

## Death Penalty

Price Of Prosperity

Mentaw's Tribe Will Not Let Successful Men Live

Supercannibals who kill over-wealthy members of their community in hand of making specimens at them, and cultured cannibals who have an alphabet and write books, were found by Mrs. Violet Clifton, well known explorer, in a tour of the Dutch East Indies.

In the little island of North Pagah, off Sumatra, Mrs. Clifton said in an interview, "The Mentaw tribe exacts death as the price of too much material success."

"A prosperous man may be sitting watching his pigs when he will be seized from behind, bound, carried off and hanged. He stays there until his executors think he has time to become a hostile spirit. Then they begin offering sacrifices to pacify the new ghost—one of a large number."

I found literary cannibals in North Sumatra. They not only possess a wealth of tribal history but have a civilized alphabet of 19 letters, and they write books, in a new language resembling Sanskrit.

"They eat people because they believe that the qualities of dead people enter into those who devour them; but also, they confess, they like that sort of diet, particularly relishing the hands of their victims."

Minard's Liniment for cuts and bruises.

Where Daylight Saving Is Popular In England they have put up a monument to William Willett, the man who originated the idea of "daylight saving." There are a good many communities in the United States where it would be hard to raise a dollar for such a purpose; but England is a land of cities and factory towns, and in such places daylight saving is and always will be popular.

A man may be justified in being a fool fairly often, but he is not justified in being the same sort of fool more than once.

In some parts of India sheep are used as beasts of burden.

Sprained Ligaments Gentle massage with Minard's will quickly relieve the pain and stiffness.

MINARD'S LINIMENT "KING OF PAIN"

## World's Smallest Books

Twenty-Nine Minute Masterpieces Exhibited At London Library

What is probably the world's smallest book was to be seen in London recently. It contains over forty blank pages bound between embossed leather covers. Four of its size would not cover a penny, yet every detail is perfect and clearly visible without the aid of a lens. This miracle of the bookbinder's art was one of twenty-nine such marvels exhibited at the London Library; the entire collection could have been contained in an ordinary cigar box.

Among these minute masterpieces was a copy of "Galileo" measuring half inch by a quarter inch, which is claimed to be the smallest Italian book set from movable type. More wonderful still was a handwritten copy of the Koran, found some time ago in Bagdad. Written in Indian ink on faded paper, this book is octagonal in shape, with one of its eight sides forming the back where the leaves are joined. This curious manuscript is perfectly legible despite the fact that a half-crown would cover it.

A Bible measuring one and a half inches square, and a volume of Dante half inch smaller, seemed giants in this Lilliputian library. A New Testament about one-fifth of a square inch in area that was kept, like some precious jewel, in a handsome plush case, was so clearly printed that one could read the title and headings without difficulty. Another Bible, in red leather covers less than one inch square, was fitted with a tiny magnifying glass through which one could admire the delicate work of the type and illustrations.—Tit Bits.

## Not Made In Canada

Patriotic Buttons To Commemorate Confederation Ordered From United States

A Sunday School of the United Church was very loyal to Canada. It had a celebration in honor of the 60th Anniversary of Confederation, and presented a patriotic button to each scholar. The button was emblematic of the Anniversary, and inscribed, it named the giver—that is the United Church.

But—There was a microscopic lettering—and it read, "Made in U.S.A."

Are there not button manufacturers in Canada?

Could not these buttons have been "Made in Canada"?

Can we imagine a button made for "Independence Day" across the line bearing—in small type—the legend, "Made in Canada"?

## Joined In Welcome

In referring to the visit of the Princess and Premier Baldwin to Canada, the New York Times said editorially: "America joins cordially in welcoming these Royal and distinguished guests as they touch her borders. If they had come one hundred and fifty years ago they might have dissuaded us from independence by their reasonableness, their common sense and charm."

## New Egg Record

A Barred Plymouth Rock, owned by the University of Saskatchewan, has established a new record for the three Prairie provinces, laying her 300th egg in her half-year of which there is still a month to go. The world's record for trap-nested production is held by No. 6, an Agassiz, B.C. pullet, which laid 351 eggs in 365 days.

Sold Tree-Chair For \$4,000 John Kruback, bent the twig—and a comfortable chair sprang out of the ground. By grafting and bending the limbs of 32 box elder saplings Kruback trained the trees to grow into the form of a chair. It took 17 years of patient effort, but Kruback sold the "tree-chair" for \$4,000.

The most obstinate corns fail to resist Holloway's Corn Remover. Try it.

Good Prices For Farm Lands A recent price for school lands in Saskatchewan was made recently at a sale held in Rosetown when Louis Montreuil, farmer of that district, paid \$76 an acre for a quarter section of land, while several other parcels sold for \$60 per acre. In the 14 hours of the sale 240 parcels were sold.

## Minard's Liniment for burns.

Biscuit Factory For Calgary Addressing the Calgary Board of Trade, Harvey Shaw, president of the Independent Biscuit Co. Ltd., stated that the Calgary plant would be in operation in September and would have a payroll running from \$150,000 to \$200,000 a year.

The study of crime is to be carried out in a new college started in San Francisco. The principal degree offered will be that of "Consulting Criminologist."

WAGLETS Is the ideal sweet for children and you, too. It aids appetite and digestion, and satisfies the craving for sweets. After Every Meal

## Plan For Co-Operation

Saskatchewan's Minister Of Agriculture Addresses Audience At Hamilton

A plan for greater co-operation between the East and the West featured an address delivered by Hon. Charles M. Hamilton, Minister of Agriculture in the Saskatchewan Government, before members of the Canadian Club at Hamilton, Ontario.

Outlining the importance of agriculture in the Western provinces and its development of late, Mr. Hamilton pointed out that other branches of agriculture besides grain growing were proving successful. The problem of the West, he said, is to make the land yield revenue enough to make it worth while for boys and girls to remain on the farms, instead of going to the cities, where greater comforts could be had.

## Little Helps For This Week

"Be ye kind one to another,"—Ephesians iv. 32.

A kindly act is a kernel sown. This will grow to a goodly tree, Shedding its fruit when time has flown Down the gulf of eternity.

—John Boye O'Reilly.

All worldly joys go less To the one joy of doing kindnesses. —George Herbert.

## MISTAKES MOTHERS MAKE IN CARE OF LITTLE ONES

Many mothers give their children solid foods at too early an age and say proudly that their babies "eat everything that grown-up people do." Such a course is almost certain to bring on indigestion and lay the foundation of much ill-health for the little one.

Other mothers administer harsh, nauseating purgatives which in reality irritate and injure the delicate stomach and bowels and at the same time cause the children to dread all medicine.

Absolutely no meat should be given to a child until it reaches the age of 18 months, and then only if approved by the doctor. For medicine, all strong, disagreeable oils and powders should be abandoned and Baby's Own Tablets given instead.

Baby's Own Tablets are especially made for little ones. They are pleasant to take and can be given with absolute safety to even the newborn babe. They quickly banish constipation and indigestion, break up colds and simple fevers and make the cutting of teeth easy. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

We heard of the end case of a Scotsman who was engaged to a girl who became so fat that he wanted to break off the engagement. But the girl couldn't get the ring off so he had to marry her.

## Mothers Should Use

D-FOWLER'S EXTRACT OF WILD STRAWBERRY

When The Babies Are Cutting Teeth

During the baby's teething time, in the hot summer months, the bowels become loose and diarrhoea, teething colic, cramps and other bowel complaints manifest themselves; the gums become swollen, cankers form in the mouth, and in many cases the child wastes to a shadow, and very often the termination is fatal.

This is the time when the mother should use Dr. Fowler's, and, perhaps, save the baby's life.

It has been on the market for the past 80 years; put up only by The T. E. Fowler Co., Limited, Toronto, Ont.

BELLEVUE, ALBERTA

W. T. Eddy will conduct an auction sale of stock, furniture, etc., at the home of Miss Drewry, three miles north-west of Cowley, on Wednesday, September the 7th, commencing at 12:30 sharp. Furniture is all practically as good as new and some good buys may be procurable. A splendid opportunity will be offered anyone desiring a fairly large safe, which is in perfect condition and may be secured prior to the sale upon application to Mr. Eddy.

The Australian national band will be at Lethbridge tomorrow and Saturday.

Miss Mildred Bond is visiting for a few days with Mrs. H. A. LeRoy at Michel.

Sacco and Vanzetti paid the death penalty in the electric chair at Boston shortly after midnight Monday.

Mr. H. T. Halliwell, editor of the Coleman Journal, paid The Enterprise a fraternal visit on Friday last.

Miss Agnes Marquis, of Pincher Creek, spent the week end here with her sisters, Mrs. Kelly and Mrs. Morgan.

The Junior Catholic Women's League are providing T 4 U at the Moose Hall on August 31st, from 3 to 6 p.m.

Mr. and Mrs. George S. White and children, who had been visiting Mr. and Mrs. Bannan here, returned to Medicine Hat the early part of the week.

The remains of the late L. M. Snye were laid to rest at Cranbrook on Saturday afternoon last. His mother and three sisters were present for the funeral.

C. V. Asselstine, B.Sc., and family, of Calgary, returned to their home after an enjoyable visit here, the guest of his brother, Dr. B. Asselstine—Ferne Press Free Press.

'The local customs officer looked suspiciously at the bottle. "It's only disinfectant," stammered the returning traveller. "Oh, is it?" snorted Griesbach, and drank a mouthful. It was.

J. W. Gresham returned this week from Calgary, where he had been visiting for a couple of weeks. During his stay there, Mr. Gresham attended the reception given the Prince of Wales by officers of the various military units.

An eastern newspaper has awarded a cash prize for this definition of a politician: "A politician is a bird that always flies with the wind." We think the prize should have gone to another contestant who defined a politician as "One who has his finger in every pie, but merely supplies the applause."

Mrs. Gordon Steeves received for the first time at her home in the Greenhill Apartments on Thursday afternoon last. Guests were received by Mrs. Steeves, assisted by Mrs. M. Steeves, of Calgary. Mrs. L. L. Morgan and Mrs. J. Smith poured tea and cut for the first hour, their places being taken for the second hour by Mrs. Granger and Mrs. Harper. Assisting in the tea room were Miss Ruby Steeves, of Calgary, and Miss M. Madden, of Lundbreck, while Mrs. Green invited the guests out to have tea. The table was centred with a silver basket, filled with pink teas and tied with pink tulle, and was lighted with cathedral candles in mauve shade held in silver holders. The reception room was decorated with baskets of pink sweet peas and ferns.

An accident that might easily have had fatal results occurred on Sunday evening. A car driven by Mrs. Ed. Royle, was crossing the bridge at the east end of Victoria Street, westward bound. Approaching the west end of the bridge, the glaring lights of a car approaching in the opposite direction "confused the lady driver, who in excitement turned the wheel so that the car went through the railing and into a ditch some eight feet below the level of the highway, where it lay on its side in brush. Occupants of the eastbound car hastened to the rescue of the party, who had to be extricated through the upper doors. Mrs. Royle was found to be suffering from slight injuries, as was also Miss Nellie, who rode with her little brother in the back seat. Beyond a sprained knee, Mr. Royle was uninjured. The car remained in the ditch over night and was placed on the road early Monday morning and was able to proceed on its own power to the garage. Only very minor damage resulted to the car.

**Local and General Items**

The Elks have discontinued their Friday night dances in the arena for this season.

Joe You, the popular chef at the Chardon Cafe, spent a few days this week at Nelson.

Miss Lucy Hinds returned to Edmonton on Saturday last, after a brief visit here with the Misses McVey.

W. R. Wilson, president of the Crows' Nest Pass Coal Company, Fernie, was a visitor here on Friday last.

Two ladies' hats, left with Jack O'Neill, may be recovered by the owners applying to The Enterprise office.

The Brooks town council found it was impossible to keep their silent policeman "lit" at night. Well, who ever heard of a policeman being lit, anyway?

The financial statement in connection with the Canadian Legion's jubilee sports in Blairmore, received too late for this week's issue, will appear next week.

"Something doing every minute at the Moose Hall, so be it" Wednesday, August 31st, from 3 to 6 p.m., under the auspices of the Junior Catholic Women's League.

Coleman Masons last week extended a farewell to three of their members in the persons of Messrs. W. E. G. Hall, Ross Powell and H. W. Clark, all of whom were leaving for other pastures.

Fred Robins, of the Robins Printing Co., Lethbridge, accompanied by his brother-in-law, Eddie Sellen, stopped over in Blairmore for a couple of days and continued on over the Banff-Windermere trail to Calgary on Tuesday.

A young lad was fined in the local court on Wednesday for operating a car minus one of the front lights, which but a few minutes previous had been stolen. Anywhere else in Alberta, for the same offence and after learning the circumstances, the most court would deal out would be a warning.

Word has been received from Bonners Ferry, Idaho, stating that the little seven-year-old son of Mr. and Mrs. William Dell Ryan, of Champion, was killed when he fell out of the car in which they were enjoying a holiday tour.

Mr. George J. Drobey, travelling passenger agent for the White Star, American, Red Star, Leyland, Panama-Pacific, Atlantic Transport and White Star-Canadian steamship lines, was in town on Monday. Mr. Drobey has head office at 10275 101st Street, Edmonton. Since his visit here in May, Mr. Drobey has travelled extensively through Canada and the States, as well as going through the Panama canal.

At a special meeting of the local Elks on Tuesday night, a class of nine candidates was put through the initiation. Following the meeting a smoker programme was carried out, during which the members and others present were given the very great pleasure of a first opportunity of hearing Mr. Arthur Hadwell, the famous Welsh national tenor, in a number of songs. Mr. Hadwell is a gold medalist of the Welsh Eisteddfod, and during the past year or so has resided at Vancouver, where on many occasions his splendid singing was broadcasted over the radio. He has decided to take up vocal teaching through this district and may be got in touch with at his cousin's, Mr. Harry Blake, Bellevue, or through Mr. T. J. Williams, Blairmore. We understand that Mr. Hadwell and Mr. Phillips, of Coleman, will appear in a duet at the United church here on the night of Sunday, September the 4th, so watch for further announcements.

Stan Walker, of Delia, spent the week end with friends in The Pass.

Miss M. A. Nyson returned last week end from a visit to her home in Nova Scotia.

Announcement is made that Mr. P. L. Naismith will on September the 1st retire as head of the C.P.R. department of natural resources.

"Last evening, sir, I distinctly saw my daughter sitting on your lap. What explanation have you to make?" "Pete—I got here early, sir, before the others."

Mrs. J. W. Gresham returned on Monday night last, after having spent the last three months at Oakland, California, the guest of Mrs. H. C. Dillingham.

Coleman Elks will open their annual summer carnival and bazaar in the Crystal Rink on Saturday, September the 3rd, to continue for three nights, till Tuesday, the 6th.

The greatest competitive swim the world has ever known takes place at Lake Ontario, near Toronto, on Wednesday next, in which some two hundred of the world's best swimmers will compete.

To say the women's feet are getting larger because they are walked on more, is as foolish as saying men's legs are longer because they get pulled off often. ANTROBUS will fit your feet without pulling your leg.

Mr. and Mrs. W. E. G. Hall and children leave Coleman this week for Drumheller, where Mr. Hall takes over the management of the Midland Collieries, Limited. Mr. Hall has for nine years held the position of mining engineer with the McGillivray Creek Coal & Coke Company, Limited, at Coleman.

The Blairmore Lodge Hall, occupied by the Masons, Oddfellows, Knights of Pythias and sister lodge auxiliaries, is being thoroughly renovated. Two new chimneys are being installed that will eliminate the necessity of so much stove pipe, which has tended to mar the otherwise good appearance of the hall.

A very successful dance was staged in the Moose Hall on Monday night, the proceeds of which were handed over to Mr. N. Nicofor, who some time ago became incapacitated through an accident at the mine. A nice sum was realized and Mr. Nicofor avails of this opportunity to thank all who in any way assisted.

Mrs. John Kemmis has joined her husband here and they, with their daughter, Miss Annie, are taking up their residence on the E. Fathorn property. Mr. and Mrs. Kemmis and daughter need no introduction and are being welcomed here again. For the past several years they have lived in Calgary.—Pincher Creek Echo.

Total profits made through liquor handled by the British Columbia liquor control board reached \$1,913,872 for the six months ended March 31st. Of this amount \$34,506 went to the various municipalities, the largest distribution ever made by the government since liquor control was inaugurated. Profits for the six months ended September 30th, 1926, were \$1,564,000.

It told that the sickness of a sperm whale in the Atlantic Ocean could set up an ancient sailor man in a comfortable chicken business, you might say "impossible." But it happened. When whales don't feel well, lumps of a substance called "Ambergris," valuable to perfume manufacturers, form inside of them. Jeremiah Pratt, seventy-four years old, lookout on a schooner, saw gulls hovering over a big lump of Ambergris, worth \$12,500. With that money, Sailor Pratt will retire to a chicken ranch and thousands of women will go around perfumed by the Ambergris.—Filmore Herald, California.

Once in a while the Lethbridge Herald forgets about Blairmore's petty court news.

Herbert Snowden, of Coleman, has been appointed a notary public and commissioner for oaths.

A meeting of the Blairmore Board of School Trustees will be held at the secretary's office tomorrow night.

The school board at Fernie has turned down the petition of ratepayers for a fourth-year high school.

A certain young married man attempted to "hoodwink" someone at his home on Tuesday night. His wife happened to be the only other occupant of the house.

Rev. J. W. Smith, pastor of the United church, left by Sunday night's train for Calgary, where he enters the two weeks' summer school of religious instruction.

According to the daily papers, women are now buying their dresses on the instalment plan. And, by gosh, we seem to have seen some of them wearing the first instalment.

Mr. and Mrs. W. J. Bartlett announce the marriage of their only daughter, Marion Winnifred, to Mr. Harold Kirk Pike, to take place at St. John's, Newfoundland, on September the 6th.

Bear in mind the Bellevue Horticultural, Industrial and Poultry Society's tenth annual exhibition and sports, to be held as usual on Labor Day. In addition will be the big three-day carnival under the auspices of the Bellevue Branch of the Canadian Legion. B.E.S.L. Blairmore owes it to Bellevue to patronize their carnival and sports, so let's be there.

**What Makes Good Toast?**

THAT plate of crisp, hot-battered toast for breakfast carries good cheer through the day. But do you know that it is the presence of sugar in bread that gives the delicate golden-brown bloom and beguiling flavor in toasting?

**MOTHER'S BREAD**  
baked with an extra amount of cane-sugar makes perfect toast. It coaxes back the appetite — starts the day right — delights you/family at any meal.
